SUBJECT INDEX: VOLUME 47

Abstracts
Abstracts of papers to be presented at the 30th Annual Scientific Session of the American College of Cardiology San Francisco, California, March 15–19, 1981, 389
Acknowledgment, 500
Author index, 501
Subject index, 506
Age
Efficacy of coronary artery bypass grafting in elderly patients with coronary artery disease, 923
Alcoholism
Echocardiographic abnormalities in chronic alcoholics with and without overt congestive heart failure, 570
Alpha adrenergic blockade
Adrenergic regulation of total systemic distensibility, 579
American College of Cardiology
Abstracts of papers to be presented at the 30th Annual Scientific Session of the American College of Cardiology San Francisco, California, March 15–19, 1981, 389, 1383
Adult cardiovascular training programs in the United States, 777
Calendar of extramural programs, 189, 386, 787, 986, 1186, 1386
Convention Features, 378
In memoriam: Mariano Alimurung, MD, FACC, 388
Learning center: program calendar, 191, 387, 788, 987, 1187, 1385
1981 Committee appointments, 1386
President's page: convocation remarks, March 18, 1981, 1185

In appreciation, 983
Amyloidosis
Left ventricular filling in differentiating restrictive amyloid cardiomyopathy and constrictive pericarditis, 791
Aneurysms
Clinical course of cardiovascular involvement in the mucocutaneous lymph node syndrome, 323
Indium-111 platelet imaging for detection of platelet deposition in abdominal aneurysms and prosthetic arterial grafts, 882
Angina pectoris
Comparison of coronary arteriographic findings during angina pectoris associated with S-T elevation or depression, 539
Comparison of the results and reproducibility of arm and leg exercise tests in men with angina pectoris, 1075
Comparison of verapamil and nifedipine in the treatment of variant angina pectoris: preliminary observations in 10 patients, 1295
Coronary sinus blood flow at rest and during isometric exercise in patients with aortic valve disease, 199
Effects of verapamil and nifedipine on left ventricular function at rest and during exercise in patients with Prinzmetal's variant angina pectoris, 1289
Ergonovine testing to detect spontaneous remissions of variant angina during long-term treatment with calcium antagonist drugs, 179
Exercise-induced angina provoked by aspirin administration in patients with variant angina, 1210
Exercise-induced S-T elevation, coronary artery disease and variant angina (LE), 1181
Frustrated benevolence of "Dr. Anonymous", 185
Hemodynamic effects of molsidomine at rest and during submaximal and maximal exercise in patients with coronary artery disease limited by exertional angina pectoris, 109
Improved exercise performance in persons with stable angina pectoris receiving diltiazem, 95
Nifedipine in the treatment of unstable angina, coronary spasm and myocardial ischemia, 163
Predicting cardiac morbidity based on risk factors and coronary angiographic findings, 73
Prognostic importance of anginal symptoms in angiographically defined coronary artery disease, 233
Reassessment of vasodilator therapy in angina: effects of oral isosorbide dinitrate and hydralazine on exercise tolerance in patients receiving propranolol, 910
Slow release oxprenolol in angina pectoris: study comparing oxprenolol, once daily, with propranolol, four times daily, 1123
Therapy of coronary vasoconstriction in patients with coronary artery disease, 157
Treatment of Prinzmetal's variant angina, 174
Treatment of vasospastic angina pectoris at rest with nitroglycerin ointment: a short-term controlled study in the coronary care unit, 1128
Unstable angina pectoris of new onset: a prospective clinical and arteriographic study of 75 patients, 228
Angiocardiography
Cardiac function during rest and exercise in patients with mitral valve prolapse, 14
Cineangiography in the diagnosis of aortic dissection, 890
Predicting cardiac morbidity based on risk factors and coronary angiographic findings, 73
Preoperative angiocardiography in infants with tetrad of Fallot, 1279
Prolapsed left atrium behind the left ventricular posterior wall: two dimensional echocardiographic and angiographic features, 708
Angiocardiography, radionuclide
Assessment of left ventricular function by radionuclide angiography during induced supraventricular tachycardia, 555
Exercise-induced regional wall motion abnormalities on radionuclide angiography. lack of reliability for detection of coronary artery disease in the presence of valvular heart disease, 861
Left ventricular function in mitral valve prolapse: assessment with radionuclide cineangiography, 7
Noninvasive radiographic assessment of cardiovascular function in acute and chronic respiratory failure, 950
Quantification of valve regurgitation by radionuclide angiography before and after valve replacement surgery, 287
Radionuclide angiographic assessment of left ventricular function during exercise in patients with a severely reduced ejection fraction, 804
Radionuclide regurgitant index: value and limitations, 292
Aorta
Cineangiography in the diagnosis of aortic dissection, 890
Aortic regurgitation
Cineangiography in the diagnosis of aortic dissection, 890
Congenitally bicuspid aortic valve causing severe, pure aortic regurgitation without superimposed infective endocarditis, 206
Early changes in left ventricular size and function after correction of left ventricular volume overload, 991
Left ventricular function in chronic aortic regurgitation with reference to end-systolic pressure, volume and stress relations, 193
Left ventricular regional wall motion and velocity of shortening in chronic mitral and aortic regurgitation, 1005
Aortic stenosis
Role of M mode echocardiography in congenital aortic stenosis, 1267
Aortic valve
Forward stroke volume calculated from aortic valve echograms in normal subjects and patients with mitral regurgitation secondary to left ventricular dysfunction, 1215
Aortic valve disease
Congenitally bicuspid aortic valve causing severe, pure aortic regurgitation without superimposed infective endocarditis, 206
Coronary sinus blood flow at rest and during isometric exercise in patients with aortic valve disease, 199
Aprindine
Ventricular tachycardia: prediction of response to oral aprindine with intravenous aprindine, 676
Arrhythmias
Effects of procainamide on strength-interval relations in normal and chronically infarcted canine myocardium, 1223
Repeated 1 hour electrocardiographic monitoring of survivors of myocardial infarction at 6 month intervals: arrhythmia detection and relation to prognosis, 1197
Arteriography
Comparison of coronary arteriographic findings during angina pectoris associated with S-T elevation or depression, 539
Coronary arterial lesions in young men who survived a first myocardial infarction: clinical and electrocardiographic predictors of triple vessel disease, 810
Coronary arteriography and atrial thrombosis in mitral valve disease, 973

Aspirin
Exercise-induced angina provoked by aspirin administration in patients with variant angina, 1210
Lack of effect of aspirin on myocardial infarct size in the dog, 258
Reduction of thrombosis in canine coronary bypass vein grafts with dipyridamole and aspirin, 1248
Sulfinpyrazone and aspirin increase epicardial coronary collateral flow in dogs, 848
Atrial emptying index
Echocardiographic diastolic ventricular abnormality in hypertensive heart disease: atrial emptying index, 1087
Atrial fibrillation
Paroxysmal atrial fibrillation in the Wolff-Parkinson-White syndrome, 562
Atrial septal defect
Right ventricular function in adult atrial septal defect, 56
Atrium, left
Prolapsed left atrium behind the left ventricular posterior wall: two-dimensional echocardiographic and angiographic features, 708
Behavior, type A
Predicting cardiac morbidity based on risk factors and coronary angiographic findings, 73
Beta adrenergic blockade
Adrenergic regulation of total systemic distensibility, 579
Bethesda Conference on Prevention of Coronary Heart Disease
Changing behavior for health, 736
Concept of Bethesda conferences, 719
Eleventh Bethesda Conference, 713
Mission of prevention, 717
Opening statement, 717
Opportunity and the task, 718
Participants, 714
Physician and prevention, 718
Primary prevention of coronary heart disease: the last 20 years, 722
Scientific foundation for prevention of coronary heart disease, 720
Task force 1: the physician and children (pediatric and adolescent practice and the school), 741
Task force 2: the physician in the office (adult medicine), 747
Task force 3: the physician in the work setting (industrial/occupational medicine), 751
Task force 4: the physician in the hospital, 766
Task force 5: the preparation of future medical practitioners (medical education at the undergraduate, graduate and postgraduate level), 769
Biopsy
Characterization of the lateral interface between normal and ischemic tissue in the canine heart during evolving myocardial infarction, 1233
Lung biopsy with frozen section as a diagnostic aid in patients with congenital heart defects, 77
Blood flow
Abnormal regional myocardial flow in myocardial bridging of the left anterior descending coronary artery, 978
Coronary sinus blood flow at rest and during isometric exercise in patients with aortic valve disease, 199
Derivation of systolic time intervals from Doppler measurement of temporal arterial blood flow, 68
Effects of diastolic synchronized retroperfusion on regional coronary blood flow in experimental myocardial ischemia, 1033
Prostacyclin in experimental myocardial ischemia: effects on hemodynamics, regional myocardial blood flow, infarct size and mortality, 835
Regional myocardial kinetics of lidocaine in experimental infarction: modulation by regional blood flow, 265
Sulfinpyrazone and aspirin increase epicardial coronary collateral flow in dogs, 848
Blood flow, coronary
Acute effects of ethanol on myocardial blood flow in the nonischemic and ischemic heart, 61
Coronary flow studies in patients with left ventricular hypertrophy of the hypertensive type, 547
Blood platelets
Indium-111 platelet imaging for detection of platelet deposition in abdominal aneurysms and prosthetic arterial grafts, 882
Lack of effect of aspirin on myocardial infarct size in the dog, 258
Left ventricular thrombi: in vivo detection by indium-111 platelet imaging and two dimensional echocardiography, 874
Platelet function in hypertension and effect of therapy, 331
Platelet function studies in coronary artery disease. X. effect of dipyridamole, 1111
Shortened platelet survival time and enhanced heart rate responses after abrupt withdrawal of propranolol from normal subjects, 1115
Blood pressure
Control of cardiac output by systemic vessels, 696
Blood vessels
Control of cardiac output by systemic vessels, 696
Books received
Books received, 188, 1379
Bundle branches
Comparative features of newly acquired left and right bundle branch block in the general population: the Framingham study, 931
Termination of circus movement tachycardia utilizing an accessory atrioventricular pathway by retrograde concealed penetration of the atrioventricular node through the bundle branch system, 1173
Calcium
Relation between ionized calcium concentration and ventricular pump performance in the dog under hemodynamically controlled conditions, 1041
Calcium antagonists
Ergonovine testing to detect spontaneous remissions of variant angina during long-term treatment with calcium antagonist drugs, 179
Improved exercise performance in persons with stable angina pectoris receiving diltiazem, 95
Therapy of coronary vasoconstriction in patients with coronary artery disease, 157
Treatment of Prinzmetal's variant angina, 174
Cardiac autotransplantation
Complete denervation of the heart (autotransplantation) for treatment of severe, refractory coronary spasm, 1375
Cardiac catheterization
Cardiac catheterization and echocardiography in infective endocarditis (LE), 1183
Clinical application of radionuclide quantitation of left-to-right cardiac shunts in children, 1273
Production of a critical coronary arterial stenosis in closed chest laboratory animals, 589
Transvenous intracardiac echocardiography, 1255
Cardiac conduction
Effect of lidocaine on escape rate in patients with complete atrioventricular block: proximal His bundle block, 1315
Electrophysiologic effects of ouabain in patients with preexcitation and circus movement tachycardia, 139
"Supernormal" phase of atrioventricular conduction with concealed capture beats, 371
Termination of circus movement tachycardia utilizing an accessory atrioventricular pathway by retrograde concealed penetration of the atrioventricular node through the bundle branch system, 1173
Cardiac output
Approximate normal standards of maximal cardiac output during upright exercise in women, 1080
Control of cardiac output by systemic vessels, 696
Direct measurement of cardiac output by gated equilibrium blood pool scintigraphy: validation of scintigraphic volume measurements by a nongeometric technique, 1061
Cardiac transplantation
Patients with congestive cardiomyopathy as cardiac transplant recipients, 1205
Cardiomyopathy
Detection of cardiomyopathic changes induced by doxorubicin based on quantitative analysis of ultrasonic backscatter, 1056
Echocardiographic abnormalities in chronic alcoholics with and without overt congestive heart failure, 570

Left ventricular regional wall motion and velocity of shortening in chronic mitral and aortic regurgitation, 1005
Verapamil
Comparison of verapamil and nifedipine in the treatment of variant angina pectoris: preliminary observations in 10 patients, 1295
Effects of verapamil and nifedipine on left ventricular function at rest and during exercise in patients with Prinzmetal's variant angina pectoris, 1289
Influence of severity of ventricular dysfunction on hemodynamic responses to intravenously administered verapamil in ischemic heart disease, 917
Wolff-Parkinson-White syndrome
Paroxysmal atrial fibrillation in the Wolff-Parkinson-White syndrome, 562
Termination of circus movement tachycardia utilizing an accessory atrioventricular pathway by retrograde concealed penetration of the atrioventricular node through the bundle branch system, 1173
Xenon-133
Intravenous xenon-133 for the determination of radionuclide first pass right ventricular ejection fraction, 626

CONTENTS: VOLUME 47 • NUMBER 1

JANUARY

CLINICAL STUDIES

1 **Gated Cardiac Blood Pool Imaging and Thallium-201 Myocardial Scintigraphy for Detection of Remote Myocardial Infarction.** Alan J. Tiefenbrunn, Daniel R. Biello, Edward M. Geltman, Burton E. Sobel, Barry A. Siegel and Robert Roberts

7 **Left Ventricular Function in Mitral Valve Prolapse: Assessment With Radionuclide Cineangiography.** John S. Gottdiener, Jeffrey S. Borer, Stephen L. Bacharach, Michael V. Green and Stephen E. Epstein

14 **Cardiac Function During Rest and Exercise in Patients With Mitral Valve Prolapse. Role of Radionuclear Angiography.** Glenn E. Newman, Raymond J. Gibbons and Robert H. Jones

20 **Exercise Cross-Sectional Echocardiographic Diagnosis of Coronary Artery Disease.** Joel Morganroth, Chin C. Chen, Daniel David, Henry S. Sawin, Masahito Naito, Connie Parrotto and Linda Meixell

27 **Importance of Coronary Collateral Circulation in Interpreting Exercise Test Results.** Julio F. Tubau, Bernard R. Chaitman, Martial G. Bourassa, Jacques Lespérance and Georges Dupras

33 **Lack of Correlation Between Exercise Capacity and Index of Resting Left Ventricular Performance in Heart Failure.** Joseph A. Franciosa, Mary Park and T. Barry Levine

40 **Systolic and Diastolic Properties of the Human Left Ventricle During Valve Replacement for Chronic Mitral Regurgitation.** Calvin Y. H. Wong and Henry M. Spotnitz

51 **Right Ventricular Performance in Mitral Stenosis.** Edmund Wroblewski, Frank James, James F. Spann and Alfred A. Bove

56 **Right Ventricular Function in Adult Atrial Septal Defect. Preoperative and Postoperative Asessment and Clinical Implications.** Richard R. Liberthson, Charles A. Boucher, H. William Strauss, Robert E. Dinsmore, Kenneth A. McKusick and Gerald M. Pohost

EXPERIMENTAL STUDIES

61 **Acute Effects of Ethanol on Myocardial Blood Flow in the Nonischemic and Ischemic Heart.** Howard S. Friedman with the technical assistance of Charles Neal, Andrew Dowd, Eileen Taylor and Edward Shaughnessy

METHODS

68 **Derivation of Systolic Time Intervals From Doppler Measurement of Temporal Arterial Blood Flow.** James A. Rothendler, Edgar C. Schick, Jr. and Thomas J. Ryan

EPIDEMIOLOGY

73 **Predicting Cardiac Morbidity Based on Risk Factors and Coronary Angiographic Findings.** Joel E. Dimsdale, John Gilbert, Adolph M. Hutter, Thomas P. Hackett and Peter C. Block

PEDIATRIC CARDIOLOGY

77 **Lung Biopsy With Frozen Section as a Diagnostic Aid in Patients With Congenital Heart Defects.** Marlene Rabinovitch, Aldo R. Castaneda and Lynne Reid

85 **Ventricular Septal Defect in Infancy: Detection With Two Dimensional Echocardiography.** John P. Cheatham, Larry A. Latson and Howard P. Gutgesell

90 **Postnatal Endocardial Fibroelastosis of the Valve of the Foramen Ovale.** Grover M. Hutchins, G. William Moore, Jocelyn F. Jones and Stephen T. Miller

REPORTS ON THERAPY

95 **Improved Exercise Performance in Persons With Stable Angina Pectoris Receiving Diltiazem.** Kenneth F. Hossack, Robert A. Bruce with the technical assistance of Shirley Trimble and Fusako Kusumi

102 **Effect of Intravenous and Intracoronary Nitroglycerin on Left Ventricular Wall Motion and Perfusion in Patients With Coronary Artery Disease.** M. Patricia McEwan, Neil D. Berman, John E. Morch, David H. Feiglin and Peter R. McLaughlin

109 **Hemodynamic Effects of Molsidomine at Rest and During Submaximal and Maximal Exercise in Patients With Coronary Artery Disease Limited by Exertional Angina Pectoris.** Jean-Marie R. Detry, Jacques Melin, Lucien A. Brasseur, Jacques Cosyns and Michel F. Rousseau

116 **Hemodynamics at Rest and During Exercise After Oral Hydralazine in Patients With Cor Pulmonale.** Lewis J. Rubin and Robert H. Peter

123 **Clinical Pharmacology and Antiarrhythmic Efficacy of N-Acetylprocainamide.** Roger A. Winkle, Patrice Jaillon, Robert E. Kates and Flora Peters

131 **Mexiletine for Refractory-Ventricular Arrhythmias: Results Using Serial Electrophysiologic Testing.** John P. DiMarco, Hasan Garan and Jeremy N. Ruskin

139 **Electrophysiologic Effects of Ouabain in Patients With Preexcitation and Circus Movement Tachycardia.** Ramesh C. Dhingra, Edwin V. Palileo, Boris Strasberg, Steven Swiryn, Robert Bauernfeind, Christopher Wyndham and Kenneth M. Rosen

REVIEWS

145 **Observations on Detecting Left Ventricular Thrombus With Two Dimensional Echocardiography: Emphasis on Avoidance of False Positive Diagnosis.** Richard W. Asinger, Frank L. Mikell, Bim Sharma, Morrison Hodges with the technical assistance of Lillian Michaud, Joe Elsperger, Darcie Bass and Kim Karlson

SEMINAR ON CALCIUM CHANNEL BLOCKERS—PART II

157 **Therapy of Coronary Vasoconstriction in Patients With Coronary Artery Disease.** Stephen Gunther, James E. Muller, Gilbert H. Mudge, Jr. and William Grossman

163 **Nifedipine in the Treatment of Unstable Angina, Coronary Spasm and Myocardial Ischemia.** Paul G. Hugenholtz, Herman R. Michels, Patrick W. Serruys and Ron W. Brower

174 **Treatment of Prinzmetal's Variant Angina. Role of Medical Treatment with Nifedipine and Surgical Coronary Revascularization Combined With Plexectomy.** Michel E. Bertrand, Jean M. LaBlanche and Pierre Y. Tilmant

179 **Ergonovine Testing to Detect Spontaneous Remissions of Variant Angina During Long-Term Treatment With Calcium Antagonist Drugs.** David D. Waters, Jadwiga Szlachcic, Pierre Theroux, Franz Dauwe and Henry F. Mizgala

HISTORICAL MILESTONES

185 **The Frustrated Benevolance of "Dr. Anonymous."** Paul Kligfield

SPECIAL DEPARTMENTS

188 **Books Received**

189 **American College of Cardiology News**

CONTENTS: VOLUME 47 • NUMBER 2 (in two parts)

FEBRUARY

CLINICAL STUDIES

193 **Left Ventricular Function in Chronic Aortic Regurgitation With Reference to End-Systolic Pressure, Volume and Stress Relations.** Mary Osbakken, Alfred A. Bove and James F. Spann

199 **Coronary Sinus Blood Flow at Rest and During Isometric Exercise in Patients With Aortic Valve Disease. Mechanism of Angina Pectoris in Presence of Normal Coronary Arteries.** Michel E. Bertrand, Jean M. LaBlanche, Pierre Y. Tilmant, François P. Thieuleux, Marc R. Delforge and Alain G. Carré

206 **Congenitally Bicuspid Aortic Valve Causing Severe, Pure Aortic Regurgitation Without Superimposed Infective Endocarditis. Analysis of 13 Patients Requiring Aortic Valve Replacement.** William C. Roberts, Andrew G. Morrow, Charles L. McIntosh, Michael Jones and Stephen E. Epstein

210 **Delayed Pericardial Disease After Radiotherapy.** Mark M. Applefeld, Robert G. Slawson, Mary Hall-Craigs, David C. Green, Robert T. Singleton and Peter H. Wiernik

214 **Hypertrophic Obstructive Cardiomyopathy and Lentiginosis: A Little Known Neural Ectodermal Syndrome.** Martin G. St. John Sutton, Abdul J. Tajik, Emilio R. Giuliani, Hymie Gordon and W. P. Daniel Su

218 **History and Physical Examination in Acute Pulmonary Embolism in Patients Without Preexisting Cardiac or Pulmonary Disease.** Paul D. Stein, Park W. Willis III and David L. DeMets

224 **Bedside Recognition, Incidence and Clinical Course of Right Ventricular Infarction.** Guillermo B. Cintron, Edgardo Hernandez, Esteban Linares and Juan M. Aranda

228 **Unstable Angina Pectoris of New Onset: A Prospective Clinical and Arteriographic Study of 75 Patients.** Mark F. Victor, Mariell J. Likoff, Gary S. Mintz and William Likoff

233 **Prognostic Importance of Anginal Symptoms in Angiographically Defined Coronary Artery Disease.** Peter F. Cohn, Phillip Harris, William H. Barry, Robert A. Rosati, Paul Rosenbaum and Christine Waternaux

238 **Analysis of Exercise-Induced Changes in R Wave Amplitude in Asymptomatic Men With Electrocardiographic ST-T Changes at Rest.** John Yiannikas, Jianis Marcomichelakis, Peter Taggart, Brian H. Kelly and Richard Emanuel

244 **Human Ventricular Refractoriness: Effects of Increasing Current.** Allan M. Greenspan, Joseph S. Camardo, Leonard N. Horowitz, Scott R. Spielman and Mark E. Josephson

EXPERIMENTAL STUDIES

251 **Extra-Adrenergic Mechanisms Responsible for the Effects of Glucose-Insulin-Potassium Solution on Vulnerability to Ventricular Fibrillation.** Wesley W. Brooks, Richard L. Verrier and Bernard Lown

258 **Lack of Effect of Aspirin on Myocardial Infarct Size in the Dog.** Robert O. Bonow, Lewis C. Lipson, Florence H. Sheehan, Norine L. Capurro, Jeffrey M. Isner, William C. Roberts, Robert E. Goldstein and Stephen E. Epstein

265 **Regional Myocardial Kinetics of Lidocaine in Experimental Infarction: Modulation by Regional Flow.** Ruben A. Zito, Vincente J. Caride, Theodore Holford and Barry L. Zaret

METHODS

271 **Noninvasive Methods for Detection of Valve Vegetations in Infective Endocarditis.** Ellen T. Melvin, Marvin Berger, Letty G. Lutzker, Emanuel Goldberg and Donna Mildvan

279 **Pulsed Doppler Echocardiographic Detection of Right-Sided Valve Regurgitation. Experimental Results and Clinical Significance.** Alan D. Waggoner, Miguel A. Quinones, James B. Young, Tedd A. Brandon, Abid A. Shah, Mario S. Verani and Richard R. Miller

287 **Quantification of Valve Regurgitation by Radionuclide Angiography Before and After Valve Replacement Surgery.** Joann Urquhart, Randolph E. Patterson, Milton Packer, Stanley J. Goldsmith, Steven F. Horowitz, Robert Litwak and Richard Gorlin

292 **Radionuclide Regurgitant Index: Value and Limitations.** Wilfred Lam, Dan Pavel, Ernest Byrom, Amjad Sheikh, David Best and Kenneth Rosen

PEDIATRIC CARDIOLOGY

299 **Treatment of d-Transposition of the Great Arteries: Management of Hypoxemia After Balloon Atrial Septostomy.** Catherine G. Henry, David Goldring, Alexis F. Hartmann, Clarence S. Weldon and Arnold W. Strauss

307 **Results of Intraventricular Baffle Procedure for Ventricular Septal Defect and Double Outlet Right Ventricle or d-Transposition of the Great Arteries.** Paul Pitlick, James French, Diana Guthaner, Norman Shumway and David Baum

315 **Idiopathic Recurrent Sustained Ventricular Tachycardia in Children and Adolescents.** Victoria L. Vetter, Mark E. Josephson and Leonard N. Horowitz

323 **Clinical Course of Cardiovascular Involvement in the Mucocutaneous Lymph Node Syndrome. Relation Between Clinical Signs of Carditis and Development of Coronary Arterial Aneurysm.** Satoshi Hiraishi, Kimio Yashiro, Koki Oguchi, Shoichi Kusano, Katsumi Ishii and Keiji Nakazawa

REPORTS ON HYPERTENSION

331 **Platelet Function in Hypertension and Effect of Therapy.** Jawahar Mehta and Paulette Mehta

335 **Clinical Correlates in Hypertensive Patients With Left Ventricular Hypertrophy Diagnosed With Echocardiography.** André Cohen, Arthur D. Hagan, John Watkins, John Mitas, Mario Schvartzman, Alberto Mazzoleni, Irving M. Cohen, S. E. Warren and W. V. R. Vieweg with the technical assistance of William Elias and Linda Samtoy

REVIEWS

343 **Clinicopathologic Correlates of Acute Ischemic Heart Disease Syndromes.** L. Maximilian Buja and James T. Willerson

357 **Response of the Left Ventricle to Stress: Effects of Exercise, Atrial Pacing, Afterload Stress and Drugs.** Robert Slutsky

DIAGNOSTIC SHELF

365 **Echocardiographic Mimicry of Pericardial Effusion.** Patricia C. Come, Marilyn F. Riley and Nicholas J. Fortuin

371 **"Supernormal" Phase of Atrioventricular Conduction With Concealed Capture Beats. Significance of Odd Number of P Waves Between Capture Beats.** Alan Lindsay and Leo Schamroth

EDITORIALS

375 **Continued Gains in Hypertension.** Edward D. Frohlich

377 **The Laennec Bicentennial.** Paul D. Kligfeld

SPECIAL DEPARTMENTS

378 **Convention Features**

384 **American College of Cardiology News**

PART 2

389 **Abstracts**

501 **Index to Abstracts**

CONTENTS: VOLUME 47 • NUMBER 3

MARCH

CLINICAL STUDIES

525 **The Natural History of Idiopathic Dilated Cardiomyopathy.** Valentin Fuster, Bernard J. Gersh, Emilio R. Giuliani, Abdul J. Tajik, Robert O. Brandenburg and Robert L. Frye

532 **Prognosis in Hypertrophic Cardiomyopathy: Role of Age and Clinical, Electrocardiographic and Hemodynamic Features.** William McKenna, John Deanfield, Azhar Faruqui, Diane England, Celia Oakley and John Goodwin

539 **Comparison of Coronary Arteriographic Findings During Angina Pectoris Associated With S-T Elevation or Depression.** Hirofumi Yasue, Shingo Omote, Akinori Takizawa, Nagao Masao, Hiromitsu Hyon, Shinichiro Nishida and Minoru Horie

547 **Coronary Flow Studies in Patients With Left Ventricular Hypertrophy of the Hypertensive Type. Evidence for an Impaired Coronary Vascular Reserve.** Augusto D. Pichard, Richard Gorlin, Harry Smith, John Ambrose and Jose Meller with the technical assistance of William King and Ondina Bobadilla

555 **Assessment of Left Ventricular Function by Radionuclide Angiography During Induced Supraventricular Tachycardia.** Steven Swiryn, Dan Pavel, Ernest Byrom, Christopher Wyndham, Raymond Pietras, Robert Bauernfeind and Kenneth M. Rosen

562 **Paroxysmal Atrial Fibrillation in the Wolff-Parkinson-White Syndrome.** Robert A. Bauernfeind, Christopher R. Wyndham, Steven P. Swiryn, Edwin V. Palileo, Boris Strasberg, Wilfred Lam, Douglas Westveer and Kenneth M. Rosen

570 **Echocardiographic Abnormalities in Chronic Alcoholics With and Without Overt Congestive Heart Failure.** Emmett C. Matthews, Jr., Julius M. Gardin, Walter L. Henry, Albert A. Del Negro, Ross D. Fletcher, Jerry A. Snow and Stephen E. Epstein

EXPERIMENTAL STUDIES

579 **Adrenergic Regulation of Total Systemic Distensibility. Venous Distensibility Effects of Norepinephrine and Isoproterenol Before and After Selective Adrenergic Blockade.** David L. Rutlen, Edward W. Supple and William John Powell, Jr.

589 **Production of a Critical Coronary Arterial Stenosis in Closed Chest Laboratory Animals. Description of a New Nonsurgical Method Based on Standard Cardiac Catheterization Techniques.** Henry Gewirtz and Albert S. Most

597 **Differential Effects of Renograffin-76 on the Ischemic and Nonischemic Myocardium.** Hajime Yamazaki, Vidya S. Banka, Monty M. Bodenheimer, Shigehito Hattori, Jai B. Agarwal and Richard H. Helfant

METHODS

603 **Accuracy of Systolic Time Interval in Detecting Abnormal Left Ventricular Performance in Coronary Artery Disease.** Richard S. Stack, Young H. Sohn and Arnold M. Weissler

610 **Noninvasive Detection of Left Ventricular Dysfunction With A Portable Electrocardiographic Gated Scintillation Probe Device.** Arnold Strashun, Steven F. Horowitz, Stanley J. Goldsmith, Louis E. Teichholz, Adam Dicker, Kenneth Miceli and Richard Gorlin

618 **Method for Quantitative Analysis of Regional Left Ventricular Function With First Pass and Gated Blood Pool Scintigraphy.** Silvio E. Papapietro, Michael V. Yester, Joseph R. Logic, W. Newlon Tauxe, John A. Mantle, William J. Rogers, Richard O. Russell, Jr. and Charles E. Rackley

626 **Intravenous Xenon-133 for the Determination of Radionuclide First Pass Right Ventricular Ejection Fraction.** Mark J. Goldberg, Joseph Mantel, Mark Friedin, Robert Ruskin and Melvyn Rubenfire

PEDIATRIC CARDIOLOGY

631 **Hereditary Dysplasia of the Pulmonary Valve in Beagle Dogs. Pathologic and Genetic Studies.** Donald F. Patterson, Mark E. Haskins and William R. Schnarr

642 **Management of Symptomatic Infants With Anomalous Origin of the Left Coronary Artery From the Pulmonary Artery.** David J. Driscoll, Michael R. Nihill, Charles E. Mullins, Denton A. Cooley and Dan G. McNamara

649 **Coronary Artery Disease in the Hurler Syndrome.** Frank C. Brosius, III and William C. Roberts

654 **Two Dimensional Echocardiographic Evaluation of Mustard Operation for d-Transposition of the Great Arteries.** Kalim U. Aziz, Milton H. Paul, Saroja Bharati, Roger B. Cole, Alexander J. Muster, Maurice Lev and Farouk S. Idriss

REPORTS ON THERAPY

665 **Comparison of Hemodynamic Actions of Pirbuterol and Dobutamine on Cardiac Function in Severe Congestive Heart Failure.** Najam A. Awan, Kathleen E. Needham, Mark K. Evenson and Dean T. Mason

670 **Hemodynamic Effects of Intravenous Prenalterol in Severe Heart Failure.** Philip C. Kirlin and Bertram Pitt

676 **Ventricular Tachycardia: Prediction of Response to Oral Aprindine With Intravenous Aprindine.** Boris Strasberg, Edwin Palileo, Darrel Prechel, Robert Bauernfeind, Steven Swiryn, Christopher R. Wyndham, Ramesh C. Dhingra, Richard Kehoe and Kenneth M. Rosen

SEMINAR

CARDIOVASCULAR FUNCTION IN RESPIRATORY FAILURE—I. *Richard A. Matthay, MD and Lawrence D. H. Wood, MD, Guest Editors.*

683 **Introduction: The Functionally Integrated Cardiovascular-Pulmonary Unit.** Richard A. Matthay and Lawrence D. H. Wood

686 **Contractile Mechanisms and Interaction of the Right and Left Ventricles.** Karl T. Weber, Joseph S. Janicki, Sanjeev Shroff and Alfred P. Fishman

696 **Control of Cardiac Output by Systemic Vessels. Circulatory Adjustments to Acute and Chronic Respiratory Failure and the Effect of Therapeutic Interventions.** Howard S. Goldberg and John Rabson

DIAGNOSTIC SHELF

703 **Observations on Spontaneous Termination of Atrioventricular Nodal Reentrant Tachycardia.** Pedro Brugada, David Ross, Frits W. H. M. Bär, Eddy J. Vanagt, Willem R. M. Dassen and Hein J. J. Wellens

708 **Prolapsed Left Atrium Behind the Left Ventricular Posterior Wall: Two Dimensional Echocardiographic and Angiographic Features.** William C. Reeves, Thomas Ciotola, Joseph D. Babb, Edward Buonocore, David Leaman with the technical assistance of Eugene Beers and LaDora Papich

BETHESDA CONFERENCE REPORT

713 **Eleventh Bethesda Conference: Prevention of Coronary Heart Disease**

SPECIAL DEPARTMENTS

777 **Education Update**

786 **American College of Cardiology News**

CONTENTS: VOLUME 47 • NUMBER 4

APRIL

CLINICAL STUDIES

791 **Left Ventricular Filling in Differentiating Restrictive Amyloid Cardiomyopathy and Constrictive Pericarditis.** Theodore I. Tyberg, Allan V. N. Goodyer, Victor W. Hurst III, Jonathan Alexander and Rene A. Langou

797 **Effects of Exercise Training on Left Ventricular Performance and Myocardial Perfusion in Patients With Coronary Artery Disease.** Mario S. Verani, G. Harley Hartung, Jean Hoepfel-Harris, David E. Welton, Craig M. Pratt and Richard R. Miller with the technical assistance of Leslie A. Del Ventura

804 **Radionuclide Angiographic Assessment of Left Ventricular Function During Exercise in Patients With a Severely Reduced Ejection Fraction.** W. Lawrence Schoolmeester, Allan G. Simpson, B. J. Sauerbrunn and Ross D. Fletcher

810 **Coronary Arterial Lesions in Young Men Who Survived a First Myocardial Infarction: Clinical and Electrocardiographic Predictors of Triple Vessel Disease.** Johan Vanhaecke, Jan Piessens, Jos L. Willems and Hilaire De Geest

815 **Randomized Controlled Trial of Intraaortic Balloon Counterpulsation in Early Myocardial Infarction With Acute Heart Failure.** Michael F. O'Rourke, Robin M. Norris, Terence J. Campbell, Victor P. Chang and Neville L. Sammel

821 **Long-Term Results of Open Radical Mitral Commissurotomy: Ten Year Follow-Up Study of 202 Patients.** Ronald I. Gross, Joseph N. Cunningham, Jr., Steven L. Snively, Frank P. Catinella, Ira M. Nathan, Peter X. Adams and Frank C. Spencer

826 **Preoperative Factors Affecting the Outcome of Isolated Mitral Valve Replacement: A 10 Year Review.** Anthony J. Dalby, Brian G. Firth and Robert Forman

EXPERIMENTAL STUDIES

835 **Prostacyclin in Experimental Myocardial Ischemia: Effects on Hemodynamics, Regional Myocardial Blood Flow, Infarct Size and Mortality.** Lair G. T. Ribeiro, Tedd A. Brandon, D. Gregg Hopkins, Lawrence A. Reduto, Addison A. Taylor and Richard R. Miller

841 **Influence of Sulfinpyrazone and Naproxen on Infarct Size in the Dog.** Roberto Bolli, Robert E. Goldstein, Nancy Davenport and Stephen E. Epstein

848 **Sulfinpyrazone and Aspirin Increase Epicardial Coronary Collateral Flow in Dogs.** Nancy Davenport, Robert E. Goldstein, Norine Capurro, Lewis C. Lipson, Robert O. Bonow, N. Raphael Shulman and Stephen E. Epstein

855 **Comparative Right and Left Ventricular Volumes and Pump Function in the Newborn Lamb.** Harold G. Erath, Jr., Thomas P. Graham, Jr., Clyde W. Smith, Sandra L. Thompson and John W. Hammon

METHODS

861 **Exercise-Induced Regional Wall Motion Abnormalities on Radionuclide Angiography. Lack of Reliability for Detection of Coronary Artery Disease in the Presence of Valvular Heart Disease.** Harvey S. Hecht and James M. Hopkins

866 **Quantitative Two Dimensional Echocardiography During Bicycle Exercise in Normal Subjects.** Werner Zwehl, Pascal Gueret, Samuel Meerbaum, Dianne Holt and Eliot Corday

874 **Left Ventricular Thrombi: In Vivo Detection by Indium-111 Platelet Imaging and Two Dimensional Echocardiography.** John R. Stratton, James L. Ritchie, Glen W. Hamilton, Karl E. Hammermeister and Laurence A. Harker

882 **Indium-111 Platelet Imaging for Detection of Platelet Deposition in Abdominal Aneurysms and Prosthetic Arterial Grafts.** James L. Ritchie, John R. Stratton, Brian Thiele, Glen W. Hamilton, Linda N. Warrick, Thomas W. Huang and Laurence A. Harker

890 **Cineangiography in the Diagnosis of Aortic Dissection.** Joaquin G. Arciniegas, Benigno Soto, William C. Little and Silvio E. Papapietro

REPORTS ON THERAPY

895 **Mexiletine for Ventricular Arrhythmias.** Philip J. Podrid and Bernard Lown

903 **Patient-Activated Transvenous Cardiac Stimulation for the Treatment of Supraventricular and Ventricular Tachycardia.** Geoffrey O. Hartzler, David R. Holmes, Jr. and Michael J. Osborn

910 **Reassessment of Vasodilator Therapy in Angina: Effects of Oral Isosorbide Dinitrate and Hydralazine on Exercise Tolerance in Patients Receiving Propranolol.** Gail G. Turner, E. Kenneth Weir, Elliot Chesler and Gordon L. Pierpont

917 **Influence of Severity of Ventricular Dysfunction on Hemodynamic Responses to Intravenously Administered Verapamil in Ischemic Heart Disease.** Christopher Y. C. Chew, Harvey S. Hecht, John T. Collett, Russell G. McAllister and Bramah N. Singh

923 **Efficacy of Coronary Artery Bypass Grafting in Elderly Patients With Coronary Artery Disease.** William S. Knapp, John S. Douglas, Jr., Joseph M. Craver, Ellis L. Jones, Spencer B. King III, David K. Bone, James M. Bradford and Charles R. Hatcher, Jr.

EPIDEMIOLOGY

931 **Comparative Features of Newly Acquired Left and Right Bundle Branch Block in the General Population: The Framingham Study.** John F. Schneider, H. Emerson Thomas, Jr., Paul Sorlie, Bernard E. Kreger, Patricia M. McNamara and William B. Kannel

SEMINAR ON CARDIOVASCULAR FUNCTION IN RESPIRATORY FAILURE—II.

Richard A. Matthay and Lawrence D. H. Wood, Guest Editors.

941 **Cardiovascular Disturbances in Chronic Respiratory Insufficiency.** James L. Robotham

950 **Noninvasive Radiographic Assessment of Cardiovascular Function in Acute and Chronic Respiratory Failure.** Harvey J. Berger and Richard A. Matthay

963 **Cardiovascular Management in Acute Hypoxemic Respiratory Failure.** Lawrence D. H. Wood and Richard M. Prewitt

DIAGNOSTIC SHELF

973 **Coronary Arteriography and Atrial Thrombosis in Mitral Valve Disease.** Thierry Colman, José L. M. de Ubago, Alvaro Figueroa, José L. Pomar, Ignacio Gallo, Carlos Mortera, Antonio Pajarón and Carlos M. G. Durán

CASE REPORT

978 **Abnormal Regional Myocardial Flow in Myocardial Bridging of the Left Anterior Descending Coronary Artery.** Augusto D. Pichard, Pablo Casanegra, Eugenia Marchant and Jose Antonio Rodriguez

SPECIAL DEPARTMENTS

983 **In Appreciation**

986 **American College of Cardiology News**

CLINICAL STUDIES

991 **Early Changes in Left Ventricular Size and Function After Correction of Left Ventricular Volume Overload.** Charles A. Boucher, John B. Bingham, Mary D. Osbakken, Robert D. Okada, H. William Strauss, Peter C. Block, Frederick H. Levine, Harry R. Phillips and Gerald M. Pohost

1005 **Left Ventricular Regional Wall Motion and Velocity of Shortening in Chronic Mitral and Aortic Regurgitation.** Mary D. Osbakken, Alfred A. Bove and James F. Spann

1010 **Predicting the Extent and Location of Coronary Artery Disease During the Early Postinfarction Period by Quantitative Thallium-201 Scintigraphy.** Robert S. Gibson, George J. Taylor, Denny D. Watson, Pamela T. Stebbins, Randolph P. Martin, Richard S. Crampton and George A. Beller

1020 **Detection and Quantification of Acute, Isolated Myocardial Infarction by Two Dimensional Echocardiography.** Cees A. Visser, K. I. Lie, Gerard Kan, Richard Meltzer and Dirk Durrer

1026 **Survival and Morbidity After Diagnosis of Occlusive Thromboaortopathy (Takayasu's Disease).** Kaichiro Ishikawa

EXPERIMENTAL STUDIES

1033 **Effects of Diastolic, Synchronized Retroperfusion on Regional Coronary Blood Flow in Experimental Myocardial Ischemia.** Alain Berdeaux, Jean-C. Farcot, Jean-P. Bourdarias, Michel Barry, Jean Bardet and Jean-F. Giudicelli

1041 **Relation Between Ionized Calcium Concentration and Ventricular Pump Performance in the Dog Under Hemodynamically Controlled Conditions.** Lambertus J. Drop, Gillian A. Geffin, Dennis D. O'Keefe, John B. Newell, Marshall L. Jacobs, Burt N. Fowler, Willard M. Daggett with the technical assistance of James S. Titus

1052 **Effect of Quinidine on Positive Inotropic Action of Digoxin.** John F. Williams, Jr. and Babu Mathew

1056 **Detection of Cardiomyopathic Changes Induced by Doxorubicin Based on Quantitative Analysis of Ultrasonic Backscatter.** James W. Mimbs, Matthew O'Donnell, James G. Miller and Burton E. Sobel

METHODS

1061 **Direct Measurement of Cardiac Output by Gated Equilibrium Blood Pool Scintigraphy: Validation of Scintigraphic Volume Measurements by a Nongeometric Technique.** Gregory J. Dehmer, Brian G. Firth, Samuel E. Lewis, James T. Willerson and L. David Hillis

1068 **Reproducibility of Left Ventricular Internal Dimensions With M Mode Echocardiography: Effects of Heart Size, Body Position and Transducer Angulation.** Maylene Wong, Pravin M. Shah and Richard D. Taylor

1075 **Comparison of the Results and Reproducibility of Arm and Leg Exercise Tests in Men With Angina Pectoris.** Bruce Lazarus, Eileen Cullinane and Paul D. Thompson

1080 **Approximate Normal Standards of Maximal Cardiac Output During Upright Exercise in Women.** Kenneth F. Hossack, Fusako Kusumi and Robert A. Bruce

STUDIES IN HYPERTENSION

1087 **Echocardiographic Diastolic Ventricular Abnormality in Hypertensive Heart Disease: Atrial Emptying Index.** Gerald R. Dreslinski, Edward D. Frohlich, Francis G. Dunn, Franz H. Messerli, Daniel H. Suarez and Efrain Reisin

PEDIATRIC CARDIOLOGY

1091 **Ventricular Tachycardia in Children.** Albert P. Rocchini, Patrick O. Chun and MacDonald Dick

1098 **Propranolol: The Preferred Palliation for Tetralogy of Fallot.** Arthur Garson, Jr., Paul C. Gillette and Dan G. McNamara

1105 **Left Ventricular Volume Characteristics in Children With Tricuspid Atresia Before and After Surgery.** Kenya Nishioka, Tetsuro Kamiya, Tadashi Ueda, Tadashi Hayashidera, Chuzo Mori, Yutaka Konishi, Norikazu Tatsuta and Jay M. Jarmakani

REPORTS ON THERAPY

1111 **Platelet Function Studies in Coronary Artery Disease. X. Effect of Dipyridamole.** Jawahar Mehta, Paulette Mehta, Carl J. Pepine and C. Richard Conti

1115 **Shortened Platelet Survival Time and Enhanced Heart Rate Responses After Abrupt Withdrawal of Propranolol From Normal Subjects.** Robert E. Goldstein, Laurence C. Corash, John F. Tallman, Jr., C. Raymond Lake, John Hyde, Craig C. Smith, Norine L. Capurro and Judith C. Anderson

1123 **Slow Release Oxprenolol in Angina Pectoris: Study Comparing Oxprenolol, Once Daily, With Propranolol, Four Times Daily.** John O. Olowoyeye, Udho Thadani and John C. Parker

1128 **Treatment of Vasospastic Angina Pectoris at Rest With Nitroglycerin Ointment: A Short-Term Controlled Study in the Coronary Care Unit.** Jorge A. Salerno, Mario Previtali, Antonio Medici, Marcello Chimienti, Ezio Bramucci, Rosangela Lepore, Giuseppe Specchia and Piero Bobba

1134 **Electrophysiologic Effects of N-Acetylprocainamide in Human Beings.** Patrice Jaillon, David Rubenson, Flora Peters, Jay W. Mason and Roger A. Winkle

SYMPOSIUM: FUTURE DIRECTIONS IN EXERCISE TESTING AND EXERCISE ELECTROCARDIOGRAPHY—I

1141 **Introduction.** Victor F. Froelicher and Paul L. McHenry

1143 **Progress in Computer Analysis of the Exercise Electrocardiogram.** Valmik Bhargava, Kiyoshi Watanabe and Victor F. Froelicher

1152 **Evaluation of Abnormal Exercise Electrocardiograms in Apparently Healthy Subjects: Labile Repolarization (ST-T) Abnormalities As a Cause of False Positive Responses.** Paul L. McHenry, H. W. Richmond, Brock L. Weisenberger, John S. Rodway, Guy F. Perry and John W. Jordan

1161 **Variations in Normal Electrocardiographic Response to Treadmill Testing.** Victor F. Froelicher, Roger Wolthuis, Joseph Fischer, Gregory Uhl with the technical assistance of Shelmar O'Connell and Neil Kieser

1168 **Computer Quantitation of Q-T and Terminal T Wave (aT-eT) Intervals During Exercise: Methodology and Results in Normal Men.** Jacqueline O'Donnell, Suzanne B. Knoebel, D. Eugene Lovelace and Paul L. McHenry

DIAGNOSTIC SHELF

1173 **Termination of Circus Movement Tachycardia Utilizing an Accessory Atrioventricular Pathway by Retrograde Concealed Penetration of the Atrioventricular Node Through the Bundle Branch System. A Mechanism of Tachycardia Termination in Wolff-Parkinson-White Syndrome.** David L. Ross, Isaac Wiener, Jeronimo Farre, Frits W. H. M. Bar, Eddy J. D. M. Vanagt and Hein J. J. Wellens

SPECIAL DEPARTMENTS

1178 **Letters to the Editor**

1185 **American College of Cardiology News**

CONTENTS: VOLUME 47 • NUMBER 6

JUNE

CLINICAL STUDIES

1189 **Preponderance of Acute Proximal Left Anterior Descending Coronary Arterial Lesions in Fatal Myocardial Infarction: A Clinicopathologic Study.** Edward H. Schuster, Lawrence S. Griffith and Bernadine H. Bulkley

1197 **Repeated 1 Hour Electrocardiographic Monitoring of Survivors of Myocardial Infarction at 6 Month Intervals: Arrhythmia Detection and Relation to Prognosis.** William Ruberman, Eve Weinblatt, Charles W. Frank, Judith D. Goldberg and Sam Shapiro

1205 **Patients With Congestive Cardiomyopathy As Cardiac Transplant Recipients. Indications for and Results of Cardiac Transplantation and Comparison With Patients With Coronary Artery Disease.** Lewis A. Hassell, Robert E. Fowles and Edward B. Stinson

1210 **Exercise-Induced Angina Provoked by Aspirin Administration in Patients With Variant Angina.** Kunihisa Miwa, Hirofumi Kambara and Chuichi Kawai

1215 **Forward Stroke Volume Calculated From Aortic Valve Echograms in Normal Subjects and Patients With Mitral Regurgitation Secondary to Left Ventricular Dysfunction.** Betty C. Corya, Susan Rasmussen, John F. Phillips and Mary Jo Black

EXPERIMENTAL STUDIES

1223 **Effects of Procainamide on Strength-Interval Relations in Normal and Chronically Infarcted Canine Myocardium.** Eric L. Michelson, Joseph F. Spear and E. Neil Moore

1233 **Characterization of the Lateral Interface Between Normal and Ischemic Tissue in the Canine Heart During Evolving Myocardial Infarction.** Derek M. Yellon, David J. Hearse, Renata Crome, Jon Grannell and Richard K. H. Wyse

1240 **Defining the Anatomic Perfusion Bed of an Occluded Coronary Artery and the Region at Risk to Infarction. A Comparative Study in the Baboon, Pig and Dog.** Grayson G. Geary, Gregory T. Smith and J. Judson McNamara

1248 **Reduction of Thrombosis in Canine Coronary Bypass Vein Grafts With Dipyridamole and Aspirin.** Miguel Josa, J. T. Lie, Richard L. Bianco and Michael P. Kaye

METHODS

1255 **Transvenous Intracardiac Echocardiography.** Ephraim Glassman and Itzhak Kronzon

1260 **Subcostal Echocardiography to Determine Right Ventricular Pacing Catheter Position and Control Advancement of Electrode Catheters in Intracardiac Electrophysiologic Studies. M Mode and Two Dimensional Studies.** Nikša Drinković

PEDIATRIC CARDIOLOGY

1267 **Role of M Mode Echocardiography in Congenital Aortic Stenosis.** Zoe Kececioglu-Draelos and Stanley J. Goldberg

1273 **Clinical Application of Radionuclide Quantitation of Left to Right Cardiac Shunts in Children.** Brenda M. McIlveen, I. Provan C. Murray, Robert W. Giles, Georges H. Molk, Charles M. Scarf and R. Michael McCredie

1279 **Preoperative Angiocardiography in Infants With Tetrad of Fallot. Review of 36 Cases.** Kenneth E. Fellows, John Smith and John F. Keane

1286 **Intravascular Hemolysis Associated With Porcine Mitral Valve Calcification in Children.** Kenneth M. Weesner, Albert P. Rocchini, Amnon Rosenthal and Douglas Behrendt

REPORTS ON THERAPY

1289 **Effects of Verapamil and Nifedipine on Left Ventricular Function at Rest and During Exercise in Patients With Prinzmetal's Variant Angina Pectoris.** Stacey M. Johnson, David R. Mauritson, James Corbett, Gregory J. Dehmer, Samuel E. Lewis, James T. Willerson and L. David Hillis

1295 **Comparison of Verapamil and Nifedipine in the Treatment of Variant Angina Pectoris: Preliminary Observations in 10 Patients.** Stacey M. Johnson, David R. Mauritson, James T. Willerson and L. David Hillis with the technical assistance of Beverly J. Erck and Snowy B. Brown

1301 **Management of Recurrent Ventricular Tachyarrhythmias Associated With Q-T Prolongation.** Mazhar M. Khan, Kathleen R. Logan, Janet M. McComb and A. A. Jennifer Adgey

1309 **Procainamide-Induced Polymorphous Ventricular Tachycardia.** Boris Strasberg, Samuel Sclarovsky, Alex Erdberg, C. Elise Duffy, Wilfred Lam, Steven Swiryn, Jacob Agmon and Kenneth M. Rosen

1315 **Effect of Lidocaine on Escape Rate in Patients With Complete Atrioventricular Block: B. Proximal His Bundle Block.** Chien-Suu Kuo and C. Pratap Reddy

REVIEWS

1321 **The "Border Zone" in Evolving Myocardial Infarction: Controversy or Confusion?** David J. Hearse and Derek M. Yellon

SYMPOSIUM: FUTURE DIRECTIONS IN EXERCISE TESTING AND EXERCISE ELECTROCARDIOGRAPHY—II

1335 **Comparative Sensitivity and Specificity of Exercise Electrocardiographic Lead Systems.** Bernard R. Chaitman and John S. Hanson

1350 **S-T Segment Elevation and Coronary Spasm in Response to Exercise.** Bernard R. Chaitman, David D. Waters, Pierre Théroux and John S. Hanson

1359 **Comparison of Ambulatory Electrocardiography and Exercise Testing.** Harold L. Kennedy

1366 **Toward the Optimal Lead System and Optimal Criteria for Exercise Electrocardiography.** Maarten L. Simoons and Pierre Block

CASE REPORTS

1375 **Complete Denervation of the Heart (Autotransplantation) for Treatment of Severe, Refractory Coronary Spasm.** Michel E. Bertrand, Jean M. LaBlanche, Pierre Y. Tilmant, Gérard Ducloux, Henri Warembourg, Jr. and Georges Soots

SUBJECT INDEX: VOLUME 48

Acebutolol
Antiarrhythmic significance of dosing intervals in beta receptor blocking therapy of hypertension with acebutolol, 911
Acetylcholine
Autonomic interactions among subsidiary atrial foci, 690
Acetylprocainamide
Long-term antiarrhythmic therapy with acetylprocainamide, 1124
Age
Effect of aging on the electrocardiogram, 513
Ajmaline
Paroxysmal atrial flutter and fibrillation associated with preexcitation syndrome: treatment with ajmaline, 929
Alpha adrenoceptor blockade
Antiarrhythmic significance of dosing intervals in beta receptor blocking therapy of hypertension with acebutolol, 911
Labetalol therapy in patients with systemic hypertension and angina pectoris: effects of combined alpha and beta adrenoceptor blockade, 917
American College of Cardiology
Affiliate in training membership, 394
Calendar of extramural programs, 208, 392, 593, 813, 987, 1171
Committees of the college, 989
Learning center: program calendar, 207, 393, 594, 814, 988, 1172
New members of the college, 203, 986, 1173
President's page: confessions of a (reformed) tobacco smoker, 811
President's page: it's the doctor's dilemma, 202
Special message, 985
Aminophylline
Effects of aminophylline in the conscious dog after coronary occlusion, 1071
Amrinone
Amrinone and exercise performance in patients with chronic heart failure, 164
Beneficial effect of amrinone on myocardial oxygen consumption during acute left ventricular failure in dogs, 75
Hemodynamic comparison of intravenous amrinone and dobutamine in patients with chronic congestive heart failure, 170
Aneurysms
Atrial myxoma with coronary aneurysmal dilatation (LE), 809
Two dimensional echocardiographic diagnosis of aortic dissection, 1155
Angina pectoris
Angina pectoris: effects of lidoflazine on exercise tolerance and chest pain, 140
Clinical efficacy of verapamil alone and combined with propranolol in treating patients with chronic stable angina pectoris, 131
Comparative study of myocardial ischemia during angina at rest and on exertion using thallium-201 scintigraphy, 410
Dynamic coronary tone in precipitation, exacerbation and relief of angina pectoris, 797
Effect of exercise training on the untrained limb exercise performance of men with angina pectoris, 844
Fatal cardiac arrest during cardiac catheterization for angina pectoris: analysis of 10 necropsy patients, 1
John Hunter and angina pectoris (LE), 980
Labetalol therapy in patients with systemic hypertension and angina pectoris: effects of combined alpha and beta adrenoceptor blockade, 917
Provocative testing with ergonovine to assess the efficacy of treatment with nifedipine, diltiazem and verapamil in variant angina, 123
Unstable angina: natural history and determinants of prognosis, 525
Unstable angina pectoris: do we know the best management? 590
Unstable angina pectoris: national cooperative study group to compare medical and surgical therapy, 517
Variable threshold of angina during exercise: a clinical manifestation of some patients with vasospastic angina, 188
Verapamil in chronic stable angina: amelioration of pacing-induced abnormalities of left ventricular ejection fraction, regional wall motion, lactate metabolism and hemodynamics, 536
Angiocardiography
Advantage of the cranial-right anterior oblique view in diagnosing mid left anterior descending and distal right coronary artery disease, 754
Angiography of atrioventricular canal defects, 492
Axial cineangiographic evaluation of the posterior ventricular septal defect, 331
Right ventricular ejection fraction and volumes after mustard repair: correlation of two dimensional echocardiograms and cineangiograms, 317
Unstable angina pectoris: do we know the best management? 590
Angiocardiography, radionuclide
Detection of left ventricular thrombi with radionuclide angiography, 565
Measurement of normal left atrial function with gated radionuclide angiography, 473
Quantification of left to right cardiac shunts by multiple deconvolution analysis, 1086
Quantitative radionuclide angiography in assessment of hemodynamic changes during upright exercise: observations in normal subjects, patients with coronary artery disease and patients with aortic regurgitation, 239
Angioplasty, percutaneous coronary transluminal
Candidates for transluminal coronary angioplasty (LE), 810
Transluminal coronary angioplasty of postmortem human hearts, 1044
Antiarrhythmic therapy
Antiarrhythmic efficacy of encainide and quinidine: validation of a model for drug assessment, 147
Pharmacokinetics of lorcainide, a new antiarrhythmic drug, in patients with cardiac rhythm disorders, 157
Aorta
Two dimensional echocardiographic diagnosis of aortic dissection, 1155
Aortic arch
Relation between aortic arch hypoplasia of variable severity and central muscular ventricular septal defects: emphasis on associated left ventricular abnormalities, 111
Aortic coarctation
Reoperation for coarctation of the aorta, 1108
Aortic regurgitation
Alterations in left ventricular volumes and ejection fraction at rest and during exercise in patients with aortic regurgitation, 17
Quantitative radionuclide angiography in assessment of hemodynamic changes during upright exercise: observations in normal subjects, patients with coronary artery disease and patients with aortic regurgitation, 239
Aortic valve
Prediction of postoperative performance in aortic valve disease, 295
Apexcardiography
Diastolic amplitude time index: a new apexcardiographic index of left ventricular diastolic function in human beings, 736
Arrhythmias
Antiarrhythmic and hemodynamic effects of calcium channel blocking agents during coronary arterial reperfusion, 69
Antiarrhythmic significance of dosing intervals in beta receptor blocking therapy of hypertension with acebutolol, 911
Characterization of left ventricular mechanical function during arrhythmias

with two dimensional echocardiography, 679
Episodic drug treatment in the management of paroxysmal arrhythmias (LE), 807
Influence of heart rate and atrial transport on left ventricular volume and function: relation to hemodynamic changes produced by supraventricular arrhythmia, 632
Long-term antiarrhythmic therapy with acetylprocainamide, 1124
Quantitative measurement of electrical instability as a function of myocardial infarct size in the dog, 858
Retrograde dual atrioventricular nodal pathways, 639
Suppression of resistant ventricular arrhythmias by twice daily dosing with flecainide, 1133
Ventricular arrhythmias late after aortic valve replacement and their relation to left ventricular performance, 824

Arteriography
(see also Angiocardiography)
Advantage of the cranial-right anterior oblique view in diagnosing mid left anterior descending and distal right coronary artery disease, 754

Athletes
Pressure-volume overload hypothesis: can it be supported? (LE), 390

Atrial alternans
Atrial alternans: experimental echocardiographic and hemodynamic demonstration during programmed pacing, 468

Atrial fibrillation
Paroxysmal atrial flutter and fibrillation associated with preexcitation syndrome: treatment with ajmaline, 929

Atrial flutter
Atrial flutter (LE), 805
Clinical and experimental studies of the effects of atrial extrastimulation and rapid pacing on atrial flutter cycle, 623
Paroxysmal atrial flutter and fibrillation associated with preexcitation syndrome: treatment with ajmaline, 929

Atrial function
Measurement of normal left atrial function with gated radionuclide angiography, 473

Atrioventricular canal
Angiography of atrioventricular canal defects, 492
Signs of membranous subaortic stenosis appearing after correction of persistent common atrioventricular canal, 340

Atrioventricular node
Retrograde dual atrioventricular nodal pathways, 639

Atrium, left
Limitations of echocardiographic techniques in evaluation of left atrial masses, 947
Two dimensional echocardiographic detection of intraatrial masses, 954

Atrium, right
Two dimensional echocardiography in evaluation of right atrial masses: five cases in pediatric patients, 961

Beta adrenoceptor blockade
Labetalol therapy in patients with systemic hypertension and angina pectoris: effects of combined alpha and beta adrenoceptor blockade, 917

Beta thromboglobulin
Elevated beta thromboglobulin in peripheral venous blood of patients with acute myocardial ischemia: direct evidence for enhanced platelet reactivity in vivo, 395

Blood flow
Redistribution of myocardial blood flow distal to a dynamic coronary arterial stenosis by sympathomimetic amines, 269

Blood flow, carotid
Augmentation of carotid flow during cardiopulmonary resuscitation by ventilation at high airway pressure simultaneous with chest compression, 1053

Blood flow, coronary
Coronary flow limitation during the development of ischemia in patients with left anterior descending coronary arterial stenosis, 1029
Intravenous dipyridamole combined with isometric handgrip for near maximal acute increase in coronary flow in patients with coronary artery disease, 1077

Blood platelets
Elevated beta thromboglobulin in peripheral venous blood of patients with acute myocardial ischemia: direct evidence for enhanced platelet reactivity in vivo, 395
Intracoronary platelet adhesion (LE), 981
Role of blood platelets and prostaglandins in coronary artery disease, 366

Blood pressure
Hemodynamic spectrum of "dominant" right ventricular infarction in 19 patients, 1016
Postprandial alterations in cardiovascular hemodynamics in autonomic dysfunctional states, 1048
Relation of time course of plasma nitroglycerin levels to echocardiographic, arterial pressure and heart rate changes after sublingual administration of nitroglycerin, 778

Books received
Books received, 198, 374, 983

Bretylium tosylate
Comparison of bretylium tosylate and lidocaine in management of out of hospital ventricular fibrillation: a randomized clinical trial, 353

Bundle branches
Correction of tetrad of Fallot with reduced incidence of right bundle branch block, 892

Cardiac arrest
Augmentation of carotid flow during cardiopulmonary resuscitation by ventilation at high airway pressure simultaneous with chest compression, 1053

Cardiac catheterization
Fatal cardiac arrest during cardiac catheterization for angina pectoris: analysis of 10 necropsy patients, 1

Cardiac conduction
Correction of tetrad of Fallot with reduced incidence of right bundle branch block, 892
Effects of diltiazem on conduction of premature impulses during acute myocardial ischemia and reperfusion, 851
Left isomerism and complete atrioventricular block: A report of six cases, 1103
Method for recording electrical activity of the sinoatrial node in human subjects (LE), 977
Observations in patients showing A-V junctional echoes with a shorter P-R than R-P interval, 611
One to one atrioventricular conduction during atrial pacing at rates of 300/minute in absence of Wolff-Parkinson-White syndrome, 789
Relation between conduction delay and ventricular fibrillation: characteristics of conduction of premature impulses during acute myocardial ischemia, 287
Retrograde dual atrioventricular nodal pathways, 639

Cardiac conduction system
Anatomic substrate for preexcitation in idiopathic myocardial hypertrophy with fibroelastosis of the left ventricle, 47
Role of the conduction system in the endocardial excitation spread in the right ventricle, 864

Cardiomyopathy
Abnormal mitral valve coaptation in hypertrophic obstructive cardiomyopathy: proposed role in systolic anterior motion of mitral valve, 258
Patterns and significance of distribution of left ventricular hypertrophy in hypertrophic cardiomyopathy, 418
Prognostic significance of 24 hour ambulatory electrocardiographic monitoring in patients with hypertrophic cardiomyopathy: a prospective study, 252
Provocation of myocardial ischemic events during initiation of vasodilator therapy for severe chronic heart failure, 939
Surgery versus medical therapy in hypertrophic obstructive cardiomyopathy (LE), 1169
Therapy of hypertrophic cardiomyopathy: medical or surgical? clinical and pathophysiologic considerations, 383
Verapamil therapy: a new approach to the pharmacologic treatment of hypertrophic cardiomyopathy: III. effects of long-term administration, 545

Carotid endarterectomy
Carotid endarterectomy and hypertension (LE), 389

Catecholamines
Redistribution of myocardial blood flow distal to a dynamic coronary arterial stenosis by sympathomimetic amines, 269

Cells
Occurrence and significance of endothelial cells in implanted porcine bioprosthetic valves, 443

Cholesterol
Plasma testosterone, high density lipoprotein cholesterol and other lipoprotein fractions, 897
Relation between high density lipoprotein cholesterol and coronary artery disease in asymptomatic men, 903

Chromonar
Chromonar and coronary steal (LE), 978

Computer methods
Computer-enhanced thallium scintigrams in asymptomatic men with abnormal exercise tests, 1037

Differential effects of nitroprusside on ischemic and nonischemic myocardial segments demonstrated by computer-assisted two dimensional echocardiography, 59
Digital image processing of two dimensional echocardiograms: identification of the endocardium, 479
Congenital heart defects
Absent pulmonary valve syndrome in infancy: surgery reconsidered, 117
Angiography of atrioventricular canal defects, 492
Congenital complete atrioventricular block: clinical and electrophysiologic predictors of need for pacemaker insertion, 1098
Correction of tetrad of Fallot with reduced incidence of right bundle branch block, 892
Hemodynamic abnormalities in response to supine exercise in patients after operative correction of tetrad of Fallot after early childhood, 325
Muscular ventricular septal defects repaired with left ventriculotomy, 877
Oral hydralazine in patients with pulmonary vascular disease secondary to congenital heart disease, 380
Relation between aortic arch hypoplasia of variable severity and central muscular ventricular septal defects: emphasis on associated left ventricular abnormalities, 111
Reoperation for coarctation of the aorta, 1108
Right ventricular ejection fraction and volumes after mustard repair: correlation of two dimensional echocardiograms and cineangiograms, 317
Signs of membranous subaortic stenosis appearing after correction of persistent common atrioventricular canal, 340
Subaortic stenosis: an unrecognized problem in transposition of the great arteries, 336
Congestive heart failure
Amrinone and exercise performance in patients with chronic heart failure, 164
Central and regional hemodynamic effects of intravenous isosorbide dinitrate, nitroglycerin and nitroprusside in patients with congestive heart failure, 1115
Dobutamine in chronic ischemic heart failure: alterations in left ventricular function and coronary hemodynamics, 554
Effects of isosorbide dinitrate and hydralazine on regional metabolic responses to arm exercise in patients with heart failure, 934
Hemodynamic comparison of intravenous amrinone and dobutamine in patients with chronic congestive heart failure, 170
Nontransmural myocardial infarction: a comparison of hospital and late clinical course of patients with that of matched patients with transmural anterior and transmural inferior myocardial infarction, 595
Plasma norepinephrine as an indicator of sympathetic neural activity in clinical cardiology, 1147
Provocation of myocardial ischemic events during initiation of vasodilator therapy for severe chronic heart failure, 939
Sustained effectiveness of minoxidil in heart failure after development of tolerance to other vasodilator drugs, 375
Contrast medium
Automated method for left ventricular volume measurement by cineventriculography with minimal doses of contrast medium, 746
Cooperative studies
Effects of a prescribed supervised exercise program on mortality and cardiovascular morbidity in patients after a myocardial infarction, 39
Unstable angina pectoris: national cooperative study group to compare medical and surgical therapy, 517
Coronary arteries
Myocardial infarction with normal coronary arteries: a prospective clinical-angiographic study, 28
Coronary artery disease
Advantage of the cranial-right anterior oblique view in diagnosing mid left anterior descending and distal right coronary artery disease, 754
Coronary flow limitation during the development of ischemia in patients with left anterior descending coronary arterial stenosis, 1029
Coronary spasm and coronary atherosclerosis (LE), 389
Coronary steal in four models of single or multiple vessel obstruction in dogs, 84
Effect of coronary bypass surgery on survival patterns in subsets of patients with left main coronary artery disease, 765
Evidence of impaired myocardial perfusion and abnormal left ventricular function during exercise in patients with isolated systolic narrowing of the left anterior descending coronary artery, 832
Exercise thallium-201 myocardial imaging in left main coronary artery disease: sensitive but not specific, 217
Fatal cardiac arrest during cardiac catheterization for angina pectoris: analysis of 10 necropsy patients, 1
Intracoronary infusion of streptokinase in patients with acute myocardial infarction: effects of reperfusion on left ventricular performance, 403
Intravenous dipyridamole combined with isometric handgrip for near maximal acute increase in coronary flow in patients with coronary artery disease, 1077
Localization of coronary artery disease with exercise electrocardiography: correlation with thallium-201 myocardial perfusion scanning, 837
Normal left ventricular emptying in coronary artery disease at rest: analysis by radiographic and equilibrium radionuclide ventriculography, 311
Prognostic significance of systolic time intervals after recovery from myocardial infarction, 995
Quantitative radionuclide angiography in assessment of hemodynamic changes during upright exercise: observations in normal subjects, patients with coronary artery disease and patients with aortic regurgitation, 239
Relation between high density lipoprotein cholesterol and coronary artery disease in asymptomatic men, 903
Role of blood platelets and prostaglandins in coronary artery disease, 366
Significance of reciprocal S-T segment depression in anterior precordial leads in acute inferior myocardial infarction: concomitant left anterior descending coronary artery disease? 1003
Stress thallium-201 myocardial scintigraphy for the detection of individual coronary arterial lesions in patients with and without previous myocardial infarction, 209
Transluminal coronary angioplasty of postmortem human hearts, 1044
Two dimensional echocardiographic analysis of wall motion abnormalities during handgrip exercise in patients with coronary artery disease, 711
Two dimensional echocardiographic evaluation of exercise-induced left and right ventricular asynergy: correlation with thallium scanning, 720
Unstable angina pectoris: national cooperative study group to compare medical and surgical therapy, 517
Coronary artery, left anterior descending
Coronary flow limitation during the development of ischemia in patients with left anterior descending coronary arterial stenosis, 1029
Evidence of impaired myocardial perfusion and abnormal left ventricular function during exercise in patients with isolated systolic narrowing of the left anterior descending coronary artery, 832
Significance of reciprocal S-T segment depression in anterior precordial leads in acute inferior myocardial infarction: concomitant left anterior descending coronary artery disease? 1003
Unstable angina pectoris: national cooperative study group to compare medical and surgical therapy, 517
Coronary artery, left main
Effect of coronary bypass surgery on survival patterns in subsets of patients with left main coronary artery disease, 765
Coronary occlusion
Dependency of location of salvageable myocardium on type of intervention, 702
Effects of aminophylline in the conscious dog after coronary occlusion, 1071
Quantitative measurement of electrical instability as a function of myocardial infarct size in the dog, 858
Coronary perfusion
Reduction in infarct size by synchronized selective coronary venous retroperfusion of arterialized blood, 1064
Coronary spasm
Coronary spasm and coronary atherosclerosis (LE), 389
Dynamic coronary tone in precipitation, exacerbation and relief of angina pectoris, 797
Exercise-induced coronary spasm with S-T segment depression and normal coronary arteriography, 193
Nifedipine blockade of ergonovine-induced coronary arterial spasm: angiographic documentation, 184

Coronary steal
Chromonar and coronary steal (LE), 978
Coronary steal in four models of single or multiple vessel obstruction in dogs, 84
Coronary stenosis
Effect of diltiazem on pacing-induced ischemia in conscious dogs with coronary stenosis: improvement of postpacing deterioration of ischemic myocardial function, 460
Redistribution of myocardial blood flow distal to a dynamic coronary arterial stenosis by sympathomimetic amines, 269
Coronary tone
Dynamic coronary tone in precipitation, exacerbation and relief of angina pectoris, 797
Counterpulsation, intraaortic balloon
Guidelines for effective and safe percutaneous intraaortic balloon pump insertion and removal, 660
Creatine kinase
Factors presaging early recurrent myocardial infarction ("extension"), 603

Densitography
Noninvasive assessment of left ventricular performance in patients with ischemic heart disease: ear densitographic study during uninterrupted treadmill exercise, 101
Diastolic amplitude time index
Diastolic amplitude time index: a new apexcardiographic index of left ventricular diastolic function in human beings, 736
Digitalis
Effects of digitalis on the human sick sinus node after pharmacologic autonomic blockade, 783
Digoxin
Digoxin-induced positive exercise tests: their clinical and prognostic significance, 655
Is there a clinically relevant interaction between quinine and digoxin in human beings (LE), 975
Quinidine-digoxin interaction: time course and pharmacokinetics, 1141
Diltiazem
Effect of diltiazem on pacing-induced ischemia in conscious dogs with coronary stenosis: improvement of postpacing deterioration of ischemic myocardial function, 460
Effects of diltiazem on conduction of premature impulses during acute myocardial ischemia and reperfusion, 851
Provocative testing with ergonovine to assess the efficacy of treatment with nifedipine, diltiazem and verapamil in variant angina, 123
Dipyridamole
Intravenous dipyridamole combined with isometric handgrip for near maximal acute increase in coronary flow in patients with coronary artery disease, 1077
Dobutamine
Dobutamine in chronic ischemic heart failure: alterations in left ventricular function and coronary hemodynamics, 554
Hemodynamic comparison of intravenous amrinone and dobutamine in patients with chronic congestive heart failure, 170
Redistribution of myocardial blood flow distal to a dynamic coronary arterial stenosis by sympathomimetic amines, 269
Dopamine
Redistribution of myocardial blood flow distal to a dynamic coronary arterial stenosis by sympathomimetic amines, 269
Drug interactions
Quinidine-digoxin interaction: time course and pharmacokinetics, 1141

Echocardiography
Abnormal mitral valve coaptation in hypertrophic obstructive cardiomyopathy: proposed role in systolic anterior motion of mitral valve, 258
Atrial alternans: experimental echocardiographic and hemodynamic demonstration during programmed pacing, 468
Characterization of left ventricular mechanical function during arrhythmias with two dimensional echocardiography, 679
Differential effects of nitroprusside on ischemic and nonischemic myocardial segments demonstrated by computer-assisted two dimensional echocardiography, 59
Digital image processing of two dimensional echocardiograms: identification of the endocardium, 479
Echocardiographic features of false tendons in the left ventricle, 177
Echocardiography in pericardial effusion (LE), 200
Limitations of echocardiographic techniques in evaluation of left atrial masses, 947
Patterns and significance of distribution of left ventricular hypertrophy in hypertrophic cardiomyopathy, 418
Relation of the echocardiographic estimate of left ventricular size to mortality in infants with severe left ventricular outflow obstruction, 887
Relation of time course of plasma nitroglycerin levels to echocardiographic, arterial pressure and heart rate changes after sublingual administration of nitroglycerin, 778
Resolution and accuracy in two dimensional echocardiography, 106
Right ventricular ejection fraction and volumes after mustard repair: correlation of two dimensional echocardiograms and cineangiograms, 317
Two dimensional echocardiographic analysis of wall motion abnormalities during handgrip exercise in patients with coronary artery disease, 711
Two dimensional echocardiographic evaluation of exercise-induced left and right ventricular asynergy: correlation with thallium scanning, 720
Two dimensional echocardiographic detection of intraatrial masses, 954
Two dimensional echocardiography in evaluation of right atrial masses: five cases in pediatric patients, 961
Two dimensional echocardiographic diagnosis of aortic dissection, 1155
Two dimensional echographic imaging of the left ventricle: comparison of mechanical and phased array systems in vitro, 728
Ejection fraction
Alterations in left ventricular volumes and ejection fraction at rest and during exercise in patients with aortic regurgitation, 17
Right ventricular ejection fraction and volumes after mustard repair: correlation of two dimensional echocardiograms and cineangiograms, 317
Verapamil in chronic stable angina: amelioration of pacing-induced abnormalities of left ventricular ejection fraction, regional wall motion, lactate metabolism and hemodynamics, 536
Electrocardiography
Anterior S-T segment depression in acute inferior myocardial infarction: indicator of posterolateral infarction, 1009
Correction of tetrad of Fallot with reduced incidence of right bundle branch block, 892
Effect of aging on the electrocardiogram, 513
Paroxysmal atrial flutter and fibrillation associated with preexcitation syndrome: treatment with ajmaline, 929
Significance of reciprocal S-T segment depression in anterior precordial leads in acute inferior myocardial infarction: concomitant left anterior descending coronary artery disease? 1003
The spinous T wave (LE), 201
Time course and rate dependence of Q-T interval changes during noncomplicated acute transmural myocardial infarction in human beings, 1023
Electrocardiography, ambulatory
Clinical, electrocardiographic and follow-up observations in patients having ventricular fibrillation during holter monitoring, 9
Prevalence, characteristics and significance of ventricular tachycardia (three or more complexes) detected with ambulatory electrocardiographic recording in the late hospital phase of acute myocardial infarction, 815
Prognostic significance of 24 hour ambulatory electrocardiographic monitoring in patients with hypertrophic cardiomyopathy: a prospective study, 252
Serial ambulatory electrocardiography and treadmill exercise testing after uncomplicated myocardial infarction (LE), 199
Electrocardiography, exercise
Exercise-induced coronary spasm with S-T segment depression and normal coronary arteriography, 193
Localization of coronary artery disease with exercise electrocardiography: correlation with thallium-201 myocardial perfusion scanning, 837
Septal Q wave in exercise testing: angiographic correlation, 247
Value of exercise thallium-201 imaging in patients with diagnostic and nondiagnostic exercise electrocardiograms, 233

Electrophysiologic studies
Anatomic and electrophysiologic correlates of ventricular tachycardia requiring left ventricular stimulation, 263
Anatomic substrate for preexcitation in idiopathic myocardial hypertrophy with fibroelastosis of the left ventricle, 47
Atrial flutter (LE), 805
Autonomic interactions among subsidiary atrial foci, 690
Clinical and experimental studies of the effects of atrial extrastimulation and rapid pacing on atrial flutter cycle, 623
Congenital complete atrioventricular block: clinical and electrophysiologic predictors of need for pacemaker insertion, 1098
Effects of digitalis on the human sick sinus node after pharmacologic autonomic blockade, 783
Electrophysiologic evaluation of encainide with use of monophasic action potential recording, 871
Initiation of ventricular tachycardia by interpolated ventricular premature depolarizations, 967
Intracavitary electrogram in right ventricular infarction (LE), 809
Method for recording electrical activity of the sinoatrial node in human subjects (LE), 977
Nonsustained polymorphic ventricular tachycardia induced by electrical stimulation in 3 week old canine myocardial infarction, 280
Observations in patients showing A-V junctional echoes with a shorter P-R than R-P interval, 611
One to one atrioventricular conduction during atrial pacing at rates of 300/minute in absence of Wolff-Parkinson-White syndrome, 789
Quantitative measurement of electrical instability as a function of myocardial infarct size in the dog, 858
Relation of the endocardial and epicardial ventricular fibrillation thresholds of the right and left ventricles, 698
Response of normal and abnormal sinus node to right ventricular stimulation, 429
Retrograde dual atrioventricular nodal pathways, 639
Role of the conduction system in the endocardial excitation spread in the right ventricle, 864

Encainide
Antiarrhythmic efficacy of encainide and quinidine: validation of a model for drug assessment, 147
Electrophysiologic evaluation of encainide with use of monophasic action potential recording, 871

Endocardium
Digital image processing of two dimensional echocardiograms: identification of the endocardium, 479
Relation of the endocardial and epicardial ventricular fibrillation thresholds of the right and left ventricles, 698

Epicardium
Relation of the endocardial and epicardial ventricular fibrillation thresholds of the right and left ventricles, 698

Epidemiologic studies
Plasma testosterone, high density lipoprotein cholesterol and other lipoprotein fractions, 897

Ergonovine maleate
Nifedipine blockade of ergonovine-induced coronary arterial spasm: angiographic documentation, 184
Provocative testing with ergonovine to assess the efficacy of treatment with nifedipine, diltiazem and verapamil in variant angina, 123

Exercise testing
Alterations in left ventricular volumes and ejection fraction at rest and during exercise in patients with aortic regurgitation, 17
Amrinone and exercise performance in patients with chronic heart failure, 164
Angina pectoris: effects of lidoflazine on exercise tolerance and chest pain, 140
Comparative study of myocardial ischemia during angina at rest and on exertion using thallium-201 scintigraphy, 410
Computer-enhanced thallium scintigrams in asymptomatic men with abnormal exercise tests, 1037
Digoxin-induced positive exercise tests: their clinical and prognostic significance, 655
Effect of propranolol on postexercise left ventricular ejection time index, 357
Effects of isosorbide dinitrate and hydralazine on regional metabolic responses to arm exercise in patients with heart failure, 934
Exercise-induced coronary spasm with S-T segment depression and normal coronary arteriography, 193
Exercise testing in the Wolff-Parkinson-White syndrome (LE), 976
Exercise thallium-201 myocardial imaging in left main coronary artery disease: sensitive but not specific, 217
Hemodynamic abnormalities in response to supine exercise in patients after operative correction of tetrad of Fallot after early childhood, 325
Intravenous dipyridamole combined with isometric handgrip for near maximal acute increase in coronary flow in patients with coronary artery disease, 1077
Long-term antianginal action of verapamil assessed with quantitated serial treadmill stress testing, 529
Noninvasive assessment of left ventricular performance in patients with ischemic heart disease: ear densitographic study during uninterrupted treadmill exercise, 101
Quantitative radionuclide angiography in assessment of hemodynamic changes during upright exercise: observations in normal subjects, patients with coronary artery disease and patients with aortic regurgitation, 239
Septal Q wave in exercise testing: angiographic correlation, 247
Serial ambulatory electrocardiography and treadmill exercise testing after uncomplicated myocardial infarction (LE), 199
Stress thallium-201 myocardial scintigraphy for the detection of individual coronary arterial lesions in patients with and without previous myocardial infarction, 209
Two dimensional echocardiographic analysis of wall motion abnormalities during handgrip exercise in patients with coronary artery disease, 711
Two dimensional echocardiographic evaluation of exercise-induced left and right ventricular asynergy: correlation with thallium scanning, 720
Value of exercise thallium-201 imaging in patients with diagnostic and nondiagnostic exercise electrocardiograms, 233
Variable threshold of angina during exercise: a clinical manifestation of some patients with vasospastic angina, 188
Verapamil in chronic stable angina: amelioration of pacing-induced abnormalities of left ventricular ejection fraction, regional wall motion, lactate metabolism and hemodynamics, 536

Exercise training
Effect of exercise training on the untrained limb exercise performance of men with angina pectoris, 844
Effects of a prescribed supervised exercise program on mortality and cardiovascular morbidity in patients after a myocardial infarction, 39
Pressure-volume overload hypothesis: can it be supported? (LE), 390

Flecainide
Suppression of resistant ventricular arrhythmias by twice daily dosing with flecainide, 1133

Flurbiprofen
Dependency of location of salvageable myocardium on type of intervention, 702

Food ingestion
Postprandial alterations in cardiovascular hemodynamics in autonomic dysfunctional states, 1048

Free fatty acids
Influence of free fatty acids on myocardial oxygen consumption and ischemic injury, 361

Heart block
Congenital complete atrioventricular block: clinical and electrophysiologic predictors of need for pacemaker insertion, 1098
Left isomerism and complete atrioventricular block: A report of six cases, 1103

Heart rate
Influence of heart rate and atrial transport on left ventricular volume and function: relation to hemodynamic changes produced by supraventricular arrhythmia, 632
Relation of time course of plasma nitroglycerin levels to echocardiographic, arterial pressure and heart rate changes after sublingual administration of nitroglycerin, 778

Hemodynamics
Antiarrhythmic and hemodynamic effects of calcium channel blocking agents during coronary arterial reperfusion, 69
Atrial alternans: experimental echocardiographic and hemodynamic

demonstration during programmed pacing, 468
Beneficial effect of amrinone on myocardial oxygen consumption during acute left ventricular failure in dogs, 75
Central and regional hemodynamic effects of intravenous isosorbide dinitrate, nitroglycerin and nitroprusside in patients with congestive heart failure, 1115
Dobutamine in chronic ischemic heart failure: alterations in left ventricular function and coronary hemodynamics, 554
Effects of aminophylline in the conscious dog after coronary occlusion, 1071
Hemodynamic abnormalities in response to supine exercise in patients after operative correction of tetrad of Fallot after early childhood, 325
Hemodynamic comparison of intravenous amrinone and dobutamine in patients with chronic congestive heart failure, 170
Hemodynamic spectrum of "dominant" right ventricular infarction in 19 patients, 1016
Influence of heart rate and atrial transport on left ventricular volume and function: relation to hemodynamic changes produced by supraventricular arrhythmia, 632
Postprandial alterations in cardiovascular hemodynamics in autonomic dysfunctional states, 1048
Provocation of myocardial ischemic events during initiation of vasodilator therapy for severe chronic heart failure, 939
Randomized controlled trial of vasodilator therapy after myocardial infarction, 345
Redistribution of myocardial blood flow distal to a dynamic coronary arterial stenosis by sympathomimetic amines, 269
Verapamil in chronic stable angina: amelioration of pacing-induced abnormalities of left ventricular ejection fraction, regional wall motion, lactate metabolism and hemodynamics, 536

History of cardiology
John Hunter and angina pectoris (LE), 980

Hydralazine
Effects of isosorbide dinitrate and hydralazine on regional metabolic responses to arm exercise in patients with heart failure, 934
Oral hydralazine in patients with pulmonary vascular disease secondary to congenital heart disease, 380

Hypertension
Antiarrhythmic significance of dosing intervals in beta receptor blocking therapy of hypertension with acebutolol, 911
Carotid endarterectomy and hypertension (LE), 389
Labetalol therapy in patients with systemic hypertension and angina pectoris: effects of combined alpha and beta adrenoceptor blockade, 917
Plasma norepinephrine as an indicator of sympathetic neural activity in clinical cardiology, 1147

Hypertrophy
Anatomic substrate for preexcitation in idiopathic myocardial hypertrophy with fibroelastosis of the left ventricle, 47
Patterns and significance of distribution of left ventricular hypertrophy in hypertrophic cardiomyopathy, 418

Hypotension
Postprandial alterations in cardiovascular hemodynamics in autonomic dysfunctional states, 1048

Ibuprofen
Dependency of location of salvageable myocardium on type of intervention, 702

Infection
Permanent pacemaker infections: characterization and management, 559

Interventricular septum
Influence of acute mechanical overload on dimension and dynamics of interventricular septal thickness in dogs, 93

Ischemia
Comparative study of myocardial ischemia during angina at rest and on exertion using thallium-201 scintigraphy, 410
Coronary flow limitation during the development of ischemia in patients with left anterior descending coronary arterial stenosis, 1029
Dependency of location of salvageable myocardium on type of intervention, 702
Differential effects of nitroprusside on ischemic and nonischemic myocardial segments demonstrated by computer-assisted two dimensional echocardiography, 59
Dobutamine in chronic ischemic heart failure: alterations in left ventricular function and coronary hemodynamics, 554
Effect of diltiazem on pacing-induced ischemia in conscious dogs with coronary stenosis: improvement of postpacing deterioration of ischemic myocardial function, 460
Effects of diltiazem on conduction of premature impulses during acute myocardial ischemia and reperfusion, 851
Elevated beta thromboglobulin in peripheral venous blood of patients with acute myocardial ischemia: direct evidence for enhanced platelet reactivity in vivo, 395
Influence of free fatty acids on myocardial oxygen consumption and ischemic injury, 361
Ischemic ventricular fibrillation: the importance of being spontaneous, 455
Provocation of myocardial ischemic events during initiation of vasodilator therapy for severe chronic heart failure, 939
Relation between conduction delay and ventricular fibrillation: characteristics of conduction of premature impulses during acute myocardial ischemia, 287
Silent myocardial ischemia (LE), 808

Isoproterenol
Redistribution of myocardial blood flow distal to a dynamic coronary arterial stenosis by sympathomimetic amines, 269

Isosorbide dinitrate
Central and regional hemodynamic effects of intravenous isosorbide dinitrate, nitroglycerin and nitroprusside in patients with congestive heart failure, 1115
Effects of isosorbide dinitrate and hydralazine on regional metabolic responses to arm exercise in patients with heart failure, 934

John Hunter
John Hunter and angina pectoris (LE), 980

Labetalol
Labetalol therapy in patients with systemic hypertension and angina pectoris: effects of combined alpha and beta adrenoceptor blockade, 917

Lactate
Verapamil in chronic stable angina: amelioration of pacing-induced abnormalities of left ventricular ejection fraction, regional wall motion, lactate metabolism and hemodynamics, 536

Left isomerism
Left isomerism and complete atrioventricular block: A report of six cases, 1103

Letters to the Editor
Atrial flutter, 805
Atrial myxoma with coronary aneurysmal dilatation, 809
Candidates for transluminal coronary angioplasty, 810
Carotid endarterectomy and hypertension, 389
Chromonar and coronary steal, 978
Controlled clinical trials of surgical procedures, 980
Coronary spasm and coronary atherosclerosis, 389
Echocardiography in pericardial effusion, 200
Episodic drug treatment in the management of paroxysmal arrhythmias, 807
Exercise testing in the Wolff-Parkinson-White syndrome, 976
Intracavitary electrogram in right ventricular infarction, 809
Intracoronary platelet adhesion, 981
Is there a clinically relevant interaction between quinine and digoxin in human beings, 975
John Hunter and angina pectoris, 980
Method for recording electrical activity of the sinoatrial node in human subjects, 977
Noninvasive measurement of ventricular pressure, 592
Pressure-volume overload hypothesis: can it be supported? 390
Serial ambulatory electrocardiography and treadmill exercise testing after uncomplicated myocardial infarction, 199
Silent myocardial ischemia, 808
The spinous T wave, 201
Surgery versus medical therapy in hypertrophic obstructive cardiomyopathy, 1169

L-hydroxyphenylglycine
Dependency of location of salvageable myocardium on type of intervention, 702

Lidocaine
Comparison of bretylium tosylate and lidocaine in management of out of hospital ventricular fibrillation: a randomized clinical trial, 353
Lidoflazine
Angina pectoris: effects of lidoflazine on exercise tolerance and chest pain, 140
Lipoprotein
Plasma testosterone, high density lipoprotein cholesterol and other lipoprotein fractions, 897
Relation between high density lipoprotein cholesterol and coronary artery disease in asymptomatic men, 903
Lorcainide
Pharmacokinetics of lorcainide, a new antiarrhythmic drug, in patients with cardiac rhythm disorders, 157

Medical writing
Cardiolocution: the cardiologist's assault on english, 973
Metabolism
Effects of isosorbide dinitrate and hydralazine on regional metabolic responses to arm exercise in patients with heart failure, 934
Verapamil in chronic stable angina: amelioration of pacing-induced abnormalities of left ventricular ejection fraction, regional wall motion, lactate metabolism and hemodynamics, 536
Minoxidil
Sustained effectiveness of minoxidil in heart failure after development of tolerance to other vasodilator drugs, 375
Mitral valve
Abnormal mitral valve coaptation in hypertrophic obstructive cardiomyopathy: proposed role in systolic anterior motion of mitral valve, 258
Mitral valve disease
Mitral valve replacement for isolated mitral regurgitation: analysis of clinical course and late postoperative left ventricular ejection fraction, 647
Myocardial bridging
Evidence of impaired myocardial perfusion and abnormal left ventricular function during exercise in patients with isolated systolic narrowing of the left anterior descending coronary artery, 832
Myocardial imaging
Two dimensional echocardiographic evaluation of exercise-induced left and right ventricular asynergy: correlation with thallium scanning, 720
Myocardial infarct
Dependency of location of salvageable myocardium on type of intervention, 702
Quantitative measurement of electrical instability as a function of myocardial infarct size in the dog, 858
Reduction in infarct size by synchronized selective coronary venous retroperfusion of arterialized blood, 1064
Myocardial infarction
Effects of a prescribed supervised exercise program on mortality and cardiovascular morbidity in patients after a myocardial infarction, 39
Intracavitary electrogram in right ventricular infarction (LE), 809
Intracoronary infusion of streptokinase in patients with acute myocardial infarction: effects of reperfusion on left ventricular performance, 403
Myocardial infarction with normal coronary arteries: a prospective clinical-angiographic study, 28
Nonsustained polymorphic ventricular tachycardia induced by electrical stimulation in 3 week old canine myocardial infarction, 280
Plasma norepinephrine as an indicator of sympathetic neural activity in clinical cardiology, 1147
Serial ambulatory electrocardiography and treadmill exercise testing after uncomplicated myocardial infarction (LE), 199
Stress thallium-201 myocardial scintigraphy for the detection of individual coronary arterial lesions in patients with and without previous myocardial infarction, 209
Myocardial infarction, acute
Anterior S-T segment depression in acute inferior myocardial infarction: indicator of posterolateral infarction, 1009
Factors presaging early recurrent myocardial infarction ("extension"), 603
Hemodynamic spectrum of "dominant" right ventricular infarction in 19 patients, 1016
Nontransmural myocardial infarction: a comparison of hospital and late clinical course of patients with that of matched patients with transmural anterior and transmural inferior myocardial infarction, 595
Prevalence, characteristics and significance of ventricular tachycardia (three or more complexes) detected with ambulatory electrocardiographic recording in the late hospital phase of acute myocardial infarction, 815
Prognostic significance of systolic time intervals after recovery from myocardial infarction, 995
Randomized controlled trial of vasodilator therapy after myocardial infarction, 345
Significance of reciprocal S-T segment depression in anterior precordial leads in acute inferior myocardial infarction: concomitant left anterior descending coronary artery disease? 1003
Time course and rate dependence of Q-T interval changes during noncomplicated acute transmural myocardial infarction in human beings, 1023
Ventricular fibrillation complicating temporary ventricular pacing in acute myocardial infarction: significance of right ventricular infarction, 1160
Myocardial perfusion
Evidence of impaired myocardial perfusion and abnormal left ventricular function during exercise in patients with isolated systolic narrowing of the left anterior descending coronary artery, 832
Myocardial reperfusion
Dependency of location of salvageable myocardium on type of intervention, 702
Effects of diltiazem on conduction of premature impulses during acute myocardial ischemia and reperfusion, 851
Reduction in infarct size by synchronized selective coronary venous retroperfusion of arterialized blood, 1064
Myocardium
Beneficial effect of amrinone on myocardial oxygen consumption during acute left ventricular failure in dogs, 75
Dependency of location of salvageable myocardium on type of intervention, 702
Myxoma
Atrial myxoma with coronary aneurysmal dilatation (LE), 809
Limitations of echocardiographic techniques in evaluation of left atrial masses, 947
Two dimensional echocardiographic detection of intraatrial masses, 954

Nifedipine
Antiarrhythmic and hemodynamic effects of calcium channel blocking agents during coronary arterial reperfusion, 69
Nifedipine blockade of ergonovine-induced coronary arterial spasm: angiographic documentation, 184
Provocative testing with ergonovine to assess the efficacy of treatment with nifedipine, diltiazem and verapamil in variant angina, 123
Nitroglycerin
Central and regional hemodynamic effects of intravenous isosorbide dinitrate, nitroglycerin and nitroprusside in patients with congestive heart failure, 1115
Relation of time course of plasma nitroglycerin levels to echocardiographic, arterial pressure and heart rate changes after sublingual administration of nitroglycerin, 778
Nitroprusside
Central and regional hemodynamic effects of intravenous isosorbide dinitrate, nitroglycerin and nitroprusside in patients with congestive heart failure, 1115
Differential effects of nitroprusside on ischemic and nonischemic myocardial segments demonstrated by computer-assisted two dimensional echocardiography, 59
Randomized controlled trial of vasodilator therapy after myocardial infarction, 345
Norepinephrine
Plasma norepinephrine as an indicator of sympathetic neural activity in clinical cardiology, 1147
Normal values
Inconsistent pattern of thallium defects: a clue to the false positive perfusion scintigram, 224
Measurement of normal left atrial function with gated radionuclide angiography, 473
Quantitative radionuclide angiography in assessment of hemodynamic changes during upright exercise: observations in normal subjects, patients with coronary

artery disease and patients with aortic regurgitation, 239
Nuclear medicine
Comparative study of myocardial ischemia during angina at rest and on exertion using thallium-201 scintigraphy, 410
Detection of left ventricular thrombi with radionuclide angiography, 565
Evaluation of aortocoronary bypass graft status by computed tomography, 304
Exercise thallium-201 myocardial imaging in left main coronary artery disease: sensitive but not specific, 217
Inconsistent pattern of thallium defects: a clue to the false positive perfusion scintigram, 224
Measurement of normal left atrial function with gated radionuclide angiography, 473
Normal left ventricular emptying in coronary artery disease at rest: analysis by radiographic and equilibrium radionuclide ventriculography, 311
Quantitative radionuclide angiography in assessment of hemodynamic changes during upright exercise: observations in normal subjects, patients with coronary artery disease and patients with aortic regurgitation, 239
Stress thallium-201 myocardial scintigraphy for the detection of individual coronary arterial lesions in patients with and without previous myocardial infarction, 209
Value of exercise thallium-201 imaging in patients with diagnostic and nondiagnostic exercise electrocardiograms, 233

Oxygen
Beneficial effect of amrinone on myocardial oxygen consumption during acute left ventricular failure in dogs, 75
Influence of free fatty acids on myocardial oxygen consumption and ischemic injury, 361

Pacemakers
Congenital complete atrioventricular block: clinical and electrophysiologic predictors of need for pacemaker insertion, 1098
Permanent pacemaker infections: characterization and management, 559
Pacemakers, atrial
Autonomic interactions among subsidiary atrial foci, 690
Pacing, atrial
Atrial alternans: experimental echocardiographic and hemodynamic demonstration during programmed pacing, 468
Clinical and experimental studies of the effects of atrial extrastimulation and rapid pacing on atrial flutter cycle, 623
Coronary flow limitation during the development of ischemia in patients with left anterior descending coronary arterial stenosis, 1029
Influence of heart rate and atrial transport on left ventricular volume and function: relation to hemodynamic changes produced by supraventricular arrhythmia, 632
Initiation of ventricular tachycardia by interpolated ventricular premature depolarizations, 967
One to one atrioventricular conduction during atrial pacing at rates of 300/minute in absence of Wolff-Parkinson-White syndrome, 789
Time course and rate dependence of Q-T interval changes during noncomplicated acute transmural myocardial infarction in human beings, 1023
Pacing, atrioventricular
Influence of heart rate and atrial transport on left ventricular volume and function: relation to hemodynamic changes produced by supraventricular arrhythmia, 632
Pacing, cardiac
Effect of diltiazem on pacing-induced ischemia in conscious dogs with coronary stenosis: improvement of postpacing deterioration of ischemic myocardial function, 460
Pacing, coronary sinus
Verapamil in chronic stable angina: amelioration of pacing-induced abnormalities of left ventricular ejection fraction, regional wall motion, lactate metabolism and hemodynamics, 536
Pacing, ventricular
Influence of heart rate and atrial transport on left ventricular volume and function: relation to hemodynamic changes produced by supraventricular arrhythmia, 632
Initiation of ventricular tachycardia by interpolated ventricular premature depolarizations, 967
Ventricular fibrillation complicating temporary ventricular pacing in acute myocardial infarction: significance of right ventricular infarction, 1160
Pediatric cardiology
Absent pulmonary valve syndrome in infancy: surgery reconsidered, 117
Congenital complete atrioventricular block: clinical and electrophysiologic predictors of need for pacemaker insertion, 1098
Effects of verapamil on supraventricular tachycardia in children, 487
Hemodynamic abnormalities in response to supine exercise in patients after operative correction of tetrad of Fallot after early childhood, 325
Intracardiac surgery in infants under age 3 months: incremental risk factors for hospital mortality, 500
Intracardiac surgery in infants under age 3 months: predictors of postoperative in-hospital cardiac death, 507
Left isomerism and complete atrioventricular block: A report of six cases, 1103
Muscular ventricular septal defects repaired with left ventriculotomy, 877
Relation between aortic arch hypoplasia of variable severity and central muscular ventricular septal defects: emphasis on associated left ventricular abnormalities, 111
Relation of the echocardiographic estimate of left ventricular size to mortality in infants with severe left ventricular outflow obstruction, 887
Right ventricular ejection fraction and volumes after mustard repair: correlation of two dimensional echocardiograms and cineangiograms, 317
Safety and efficacy of short- and long-term verapamil therapy in children with tachycardia, 1091
Signs of membranous subaortic stenosis appearing after correction of persistent common atrioventricular canal, 340
Subaortic stenosis: an unrecognized problem in transposition of the great arteries, 336
Two dimensional echocardiography in evaluation of right atrial masses: five cases in pediatric patients, 961
Pericardial effusion
Echocardiography in pericardial effusion (LE), 200
Pharmacokinetics
Quinidine-digoxin interaction: time course and pharmacokinetics, 1141
Phonocardiography
Intracardiac phonocardiography in tricuspid regurgitation: relation to clinical and angiographic findings, 578
Polysplenia syndrome
Left isomerism and complete atrioventricular block: A report of six cases, 1103
Preexcitation
Anatomic substrate for preexcitation in idiopathic myocardial hypertrophy with fibroelastosis of the left ventricle, 47
P-R interval
Observations in patients showing A-V junctional echoes with a shorter P-R than R-P interval, 611
Propranolol
Clinical efficacy of verapamil alone and combined with propranolol in treating patients with chronic stable angina pectoris, 131
Effect of propranolol on postexercise left ventricular ejection time index, 357
Plasma norepinephrine as an indicator of sympathetic neural activity in clinical cardiology, 1147
Prostaglandins
Role of blood platelets and prostaglandins in coronary artery disease, 366
Pulmonary valve
Absent pulmonary valve syndrome in infancy: surgery reconsidered, 117
Pulmonary vascular disease
Oral hydralazine in patients with pulmonary vascular disease secondary to congenital heart disease, 380
Pulmonary venous dilatation in pulmonary veno-occlusive disease, 585

Q-T interval
Time course and rate dependence of Q-T interval changes during noncomplicated acute transmural myocardial infarction in human beings, 1023
Quinidine
Antiarrhythmic efficacy of encainide and quinidine: validation of a model for drug assessment, 147
Clinical, electrocardiographic and follow-up observations in patients having ventricular fibrillation during holter monitoring, 9
Quinidine-digoxin interaction: time course and pharmacokinetics, 1141
Quinine
Is there a clinically relevant interaction between quinine and digoxin in human beings (LE), 975

Q wave
Septal Q wave in exercise testing: angiographic correlation, 247

Reentry
Clinical and experimental studies of the effects of atrial extrastimulation and rapid pacing on atrial flutter cycle, 623
Observations in patients showing A-V junctional echoes with a shorter P-R than R-P interval, 611
Retrograde dual atrioventricular nodal pathways, 639
Resuscitation, cardiopulmonary
Augmentation of carotid flow during cardiopulmonary resuscitation by ventilation at high airway pressure simultaneous with chest compression, 1053

Scintigraphy
Comparative study of myocardial ischemia during angina at rest and on exertion using thallium-201 scintigraphy, 410
Computer-enhanced thallium scintigrams in asymptomatic men with abnormal exercise tests, 1037
Evidence of impaired myocardial perfusion and abnormal left ventricular function during exercise in patients with isolated systolic narrowing of the left anterior descending coronary artery, 832
Exercise thallium-201 myocardial imaging in left main coronary artery disease: sensitive but not specific, 217
Inconsistent pattern of thallium defects: a clue to the false positive perfusion scintigram, 224
Localization of coronary artery disease with exercise electrocardiography: correlation with thallium-201 myocardial perfusion scanning, 837
Stress thallium-201 myocardial scintigraphy for the detection of individual coronary arterial lesions in patients with and without previous myocardial infarction, 209
Two dimensional echocardiographic evaluation of exercise-induced left and right ventricular asynergy: correlation with thallium scanning, 720
Value of exercise thallium-201 imaging in patients with diagnostic and nondiagnostic exercise electrocardiograms, 233
Shunts
Quantification of left to right cardiac shunts by multiple deconvolution analysis, 1086
Sick sinus syndrome
Effects of digitalis on the human sick sinus node after pharmacologic autonomic blockade, 783
Sinus node
Effects of digitalis on the human sick sinus node after pharmacologic autonomic blockade, 783
Response of normal and abnormal sinus node to right ventricular stimulation, 429
Sodium
Plasma norepinephrine as an indicator of sympathetic neural activity in clinical cardiology, 1147
Stenosis
Signs of membranous subaortic stenosis appearing after correction of persistent common atrioventricular canal, 340
Subaortic stenosis: an unrecognized problem in transposition of the great arteries, 336
Stimulation, ventricular
Anatomic and electrophysiologic correlates of ventricular tachycardia requiring left ventricular stimulation, 263
Nonsustained polymorphic ventricular tachycardia induced by electrical stimulation in 3 week old canine myocardial infarction, 280
Observations in patients showing A-V junctional echoes with a shorter P-R than R-P interval, 611
Response of normal and abnormal sinus node to right ventricular stimulation, 429
Streptokinase
Intracoronary infusion of streptokinase in patients with acute myocardial infarction: effects of reperfusion on left ventricular performance, 403
S-T segment
Anterior S-T segment depression in acute inferior myocardial infarction: indicator of posterolateral infarction, 1009
Significance of reciprocal S-T segment depression in anterior precordial leads in acute inferior myocardial infarction: concomitant left anterior descending coronary artery disease? 1003
Surgery
Transluminal coronary angioplasty of postmortem human hearts, 1044
Surgery, aortocoronary bypass
Effect of coronary bypass surgery on survival patterns in subsets of patients with left main coronary artery disease, 765
Evaluation of aortocoronary bypass graft status by computed tomography, 304
Fatal cardiac arrest during cardiac catheterization for angina pectoris: analysis of 10 necropsy patients, 1
Surgery, mitral valve
Controlled clinical trials of surgical procedures (LE), 980
Surgery, pediatric
Absent pulmonary valve syndrome in infancy: surgery reconsidered, 117
Correction of tetrad of Fallot with reduced incidence of right bundle branch block, 892
Hemodynamic abnormalities in response to supine exercise in patients after operative correction of tetrad of Fallot after early childhood, 325
Intracardiac surgery in infants under age 3 months: incremental risk factors for hospital mortality, 500
Intracardiac surgery in infants under age 3 months: predictors of postoperative in-hospital cardiac death, 507
Muscular ventricular septal defects repaired with left ventriculotomy, 877
Reoperation for coarctation of the aorta, 1108
Right ventricular ejection fraction and volumes after mustard repair: correlation of two dimensional echocardiograms and cineangiograms, 317
Surgery, valve
Mitral valve replacement for isolated mitral regurgitation: analysis of clinical course and late postoperative left ventricular ejection fraction, 647
Prediction of postoperative performance in aortic valve disease, 295
Structure and classification of cuspal tears and perforations in porcine bioprosthetic cardiac valves implanted in patients, 665
Ventricular arrhythmias late after aortic valve replacement and their relation to left ventricular performance, 824
Surgery versus medical therapy
Controlled clinical trials of surgical procedures (LE), 980
Surgery versus medical therapy in hypertrophic obstructive cardiomyopathy (LE), 1169
Therapy of hypertrophic cardiomyopathy: medical or surgical? clinical and pathophysiologic considerations, 383
Unstable angina pectoris: national cooperative study group to compare medical and surgical therapy, 517
Sympathetic nervous system
Plasma norepinephrine as an indicator of sympathetic neural activity in clinical cardiology, 1147
Postprandial alterations in cardiovascular hemodynamics in autonomic dysfunctional states, 1048
Systolic time intervals
Effect of propranolol on postexercise left ventricular ejection time index, 357
Noninvasive assessment of left ventricular performance in patients with ischemic heart disease: ear densitographic study during uninterrupted treadmill exercise, 101
Prognostic significance of systolic time intervals after recovery from myocardial infarction, 995

Tachycardia
Anatomic and electrophysiologic correlates of ventricular tachycardia requiring left ventricular stimulation, 263
Effects of verapamil on supraventricular tachycardia in children, 487
Initiation of ventricular tachycardia by interpolated ventricular premature depolarizations, 967
Nonsustained polymorphic ventricular tachycardia induced by electrical stimulation in 3 week old canine myocardial infarction, 280
Prevalence, characteristics and significance of ventricular tachycardia (three or more complexes) detected with ambulatory electrocardiographic recording in the late hospital phase of acute myocardial infarction, 815
Safety and efficacy of short- and long-term verapamil therapy in children with tachycardia, 1091
Tendons, false
Echocardiographic features of false tendons in the left ventricle, 177
Testosterone
Plasma testosterone, high density lipoprotein cholesterol and other lipoprotein fractions, 897
Tetrad of Fallot
Correction of tetrad of Fallot with reduced incidence of right bundle branch block, 892
Hemodynamic abnormalities in response

to supine exercise in patients after operative correction of tetrad of Fallot after early childhood, 325
Thallium-201
Comparative study of myocardial ischemia during angina at rest and on exertion using thallium-201 scintigraphy, 410
Computer-enhanced thallium scintigrams in asymptomatic men with abnormal exercise tests, 1037
Evidence of impaired myocardial perfusion and abnormal left ventricular function during exercise in patients with isolated systolic narrowing of the left anterior descending coronary artery, 832
Exercise thallium-201 myocardial imaging in left main coronary artery disease: sensitive but not specific, 217
Inconsistent pattern of thallium defects: a clue to the false positive perfusion scintigram, 224
Localization of coronary artery disease with exercise electrocardiography: correlation with thallium-201 myocardial perfusion scanning, 837
Stress thallium-201 myocardial scintigraphy for the detection of individual coronary arterial lesions in patients with and without previous myocardial infarction, 209
Two dimensional echocardiographic evaluation of exercise-induced left and right ventricular asynergy: correlation with thallium scanning, 720
Value of exercise thallium-201 imaging in patients with diagnostic and nondiagnostic exercise electrocardiograms, 233
Thrombus
Detection of left ventricular thrombi with radionuclide angiography, 565
Evaluation of left ventricular thrombus with computed tomography, 573
Intracoronary infusion of streptokinase in patients with acute myocardial infarction: effects of reperfusion on left ventricular performance, 403
Limitations of echocardiographic techniques in evaluation of left atrial masses, 947
Two dimensional echocardiographic detection of intraatrial masses, 954
Two dimensional echocardiography in evaluation of right atrial masses: five cases in pediatric patients, 961
Thyroid hormone
Effects of thyroid hormone on left ventricular function in patients treated for thyrotoxicosis, 33
Thyrotoxicosis
Effects of thyroid hormone on left ventricular function in patients treated for thyrotoxicosis, 33
Tomography
Evaluation of aortocoronary bypass graft status by computed tomography, 304
Evaluation of left ventricular thrombus with computed tomography, 573
Transposition of great arteries
Right ventricular ejection fraction and volumes after mustard repair: correlation of two dimensional echocardiograms and cineangiograms, 317
Subaortic stenosis: an unrecognized problem in transposition of the great arteries, 336
Tricuspid regurgitation
Intracardiac phonocardiography in tricuspid regurgitation: relation to clinical and angiographic findings, 578
Tumors
Limitations of echocardiographic techniques in evaluation of left atrial masses, 947
Two dimensional echocardiographic detection of intraatrial masses, 954
Two dimensional echocardiography in evaluation of right atrial masses: five cases in pediatric patients, 961

Ultrasound
Influence of acute mechanical overload on dimension and dynamics of interventricular septal thickness in dogs, 93

Vagus
Autonomic interactions among subsidiary atrial foci, 690
Valve prostheses
Occurrence and significance of endothelial cells in implanted porcine bioprosthetic valves, 443
Structure and classification of cuspal tears and perforations in porcine bioprosthetic cardiac valves implanted in patients, 665
Vasodilator therapy
Provocation of myocardial ischemic events during initiation of vasodilator therapy for severe chronic heart failure, 939
Sustained effectiveness of minoxidil in heart failure after development of tolerance to other vasodilator drugs, 375
Vegetations
Two dimensional echocardiography in evaluation of right atrial masses: five cases in pediatric patients, 961
Venae cavae
Left isomerism and complete atrioventricular block: A report of six cases, 1103
Ventricle, left
Anatomic substrate for preexcitation in idiopathic myocardial hypertrophy with fibroelastosis of the left ventricle, 47
Detection of left ventricular thrombi with radionuclide angiography, 565
Echocardiographic features of false tendons in the left ventricle, 177
Evaluation of left ventricular thrombus with computed tomography, 573
Relation of the echocardiographic estimate of left ventricular size to mortality in infants with severe left ventricular outflow obstruction, 887
Relation of the endocardial and epicardial ventricular fibrillation thresholds of the right and left ventricles, 698
Two dimensional echographic imaging of the left ventricle: comparison of mechanical and phased array systems in vitro, 728
Ventricle, right
Hemodynamic spectrum of "dominant" right ventricular infarction in 19 patients, 1016
Intracavitary electrogram in right ventricular infarction (LE), 809
Relation of the endocardial and epicardial ventricular fibrillation thresholds of the right and left ventricles, 698
Right ventricular ejection fraction and volumes after mustard repair: correlation of two dimensional echocardiograms and cineangiograms, 317
Role of the conduction system in the endocardial excitation spread in the right ventricle, 864
Ventricular fibrillation complicating temporary ventricular pacing in acute myocardial infarction: significance of right ventricular infarction, 1160
Ventricular arrhythmias
Anatomic and electrophysiologic correlates of ventricular tachycardia requiring left ventricular stimulation, 263
Variability of repetitive arrhythmia formation in patients with chronic ventricular arrhythmia, 437
Ventricular contractility
Hemodynamic spectrum of "dominant" right ventricular infarction in 19 patients, 1016
Ventricular fibrillation
Clinical, electrocardiographic and follow-up observations in patients having ventricular fibrillation during holter monitoring, 9
Comparison of bretylium tosylate and lidocaine in management of out of hospital ventricular fibrillation: a randomized clinical trial, 353
Ischemic ventricular fibrillation: the importance of being spontaneous, 455
Relation between conduction delay and ventricular fibrillation: characteristics of conduction of premature impulses during acute myocardial ischemia, 287
Relation of the endocardial and epicardial ventricular fibrillation thresholds of the right and left ventricles, 698
Ventricular fibrillation complicating temporary ventricular pacing in acute myocardial infarction: significance of right ventricular infarction, 1160
Ventricular function
Beneficial effect of amrinone on myocardial oxygen consumption during acute left ventricular failure in dogs, 75
Characterization of left ventricular mechanical function during arrhythmias with two dimensional echocardiography, 679
Clinical, electrocardiographic and follow-up observations in patients having ventricular fibrillation during holter monitoring, 9
Diastolic amplitude time index: a new apexcardiographic index of left ventricular diastolic function in human beings, 736
Differential effects of nitroprusside on ischemic and nonischemic myocardial segments demonstrated by computer-assisted two dimensional echocardiography, 59
Dobutamine in chronic ischemic heart failure: alterations in left ventricular function and coronary hemodynamics, 554
Effects of thyroid hormone on left ventricular function in patients treated for thyrotoxicosis, 33
Evidence of impaired myocardial perfusion and abnormal left ventricular function during exercise in patients with isolated systolic narrowing of the left anterior descending coronary artery, 832
Hemodynamic spectrum of "dominant" right ventricular infarction in 19 patients, 1016

Influence of acute mechanical overload on dimension and dynamics of interventricular septal thickness in dogs, 93
Influence of heart rate and atrial transport on left ventricular volume and function: relation to hemodynamic changes produced by supraventricular arrhythmia, 632
Intracoronary infusion of streptokinase in patients with acute myocardial infarction: effects of reperfusion on left ventricular performance, 403
Mitral valve replacement for isolated mitral regurgitation: analysis of clinical course and late postoperative left ventricular ejection fraction, 647
Noninvasive assessment of left ventricular performance in patients with ischemic heart disease: ear densitographic study during uninterrupted treadmill exercise, 101
Prognostic significance of systolic time intervals after recovery from myocardial infarction, 995
Ventricular arrhythmias late after aortic valve replacement and their relation to left ventricular performance, 824

Ventricular outflow tract
Relation of the echocardiographic estimate of left ventricular size to mortality in infants with severe left ventricular outflow obstruction, 887

Ventricular pressure
Noninvasive measurement of ventricular pressure (LE), 592

Ventricular septal defect
Absent pulmonary valve syndrome in infancy: surgery reconsidered, 117
Axial cineangiographic evaluation of the posterior ventricular septal defect, 331
Muscular ventricular septal defects repaired with left ventriculotomy, 877
Relation between aortic arch hypoplasia of variable severity and central muscular ventricular septal defects: emphasis on associated left ventricular abnormalities, 111

Ventricular volumes
Alterations in left ventricular volumes and ejection fraction at rest and during exercise in patients with aortic regurgitation, 17
Automated method for left ventricular volume measurement by cineventriculography with minimal doses of contrast medium, 746
Influence of heart rate and atrial transport on left ventricular volume and function: relation to hemodynamic changes produced by supraventricular arrhythmia, 632
Right ventricular ejection fraction and volumes after mustard repair: correlation of two dimensional echocardiograms and cineangiograms, 317

Ventricular wall motion
Two dimensional echocardiographic analysis of wall motion abnormalities during handgrip exercise in patients with coronary artery disease, 711
Two dimensional echocardiographic evaluation of exercise-induced left and right ventricular asynergy: correlation with thallium scanning, 720
Verapamil in chronic stable angina: amelioration of pacing-induced abnormalities of left ventricular ejection fraction, regional wall motion, lactate metabolism and hemodynamics, 536

Ventriculography
Automated method for left ventricular volume measurement by cineventriculography with minimal doses of contrast medium, 746
Intracardiac phonocardiography in tricuspid regurgitation: relation to clinical and angiographic findings, 578

Ventriculography, radionuclide
Influence of heart rate and atrial transport on left ventricular volume and function: relation to hemodynamic changes produced by supraventricular arrhythmia, 632
Normal left ventricular emptying in coronary artery disease at rest: analysis by radiographic and equilibrium radionuclide ventriculography, 311

Ventriculotomy
Muscular ventricular septal defects repaired with left ventriculotomy, 877

Verapamil
Antiarrhythmic and hemodynamic effects of calcium channel blocking agents during coronary arterial reperfusion, 69
Clinical efficacy of verapamil alone and combined with propranolol in treating patients with chronic stable angina pectoris, 131
Effects of verapamil on supraventricular tachycardia in children, 487
Episodic drug treatment in the management of paroxysmal arrhythmias (LE), 807
Long-term antianginal action of verapamil assessed with quantitated serial treadmill stress testing, 529
Provocative testing with ergonovine to assess the efficacy of treatment with nifedipine, diltiazem and verapamil in variant angina, 123
Safety and efficacy of short- and long-term verapamil therapy in children with tachycardia, 1091
Verapamil in chronic stable angina: amelioration of pacing-induced abnormalities of left ventricular ejection fraction, regional wall motion, lactate metabolism and hemodynamics, 536
Verapamil therapy: a new approach to the pharmacologic treatment of hypertrophic cardiomyopathy: III. effects of long-term administration, 545

Wolff-Parkinson-White syndrome
Exercise testing in the Wolff-Parkinson-White syndrome (LE), 976
Paroxysmal atrial flutter and fibrillation associated with preexcitation syndrome: treatment with ajmaline, 929

CLINICAL STUDIES

1 **Fatal Cardiac Arrest During Cardiac Catheterization for Angina Pectoris: Analysis of 10 Necropsy Patients.** Henry Scott Cabin and William C. Roberts

9 **Clinical, Electrocardiographic and Follow-Up Observations in Patients Having Ventricular Fibrillation During Holter Monitoring. Role of Quinidine Therapy.** Pablo Denes, Alan Gabster and Shoei K. Huang

17 **Alterations in Left Ventricular Volumes and Ejection Fraction at Rest and During Exercise in Patients With Aortic Regurgitation.** Gregory J. Dehmer, Brian G. Firth, L. David Hillis, James R. Corbett, Samuel E. Lewis, Robert W. Parkey and James T. Willerson

28 **Myocardial Infarction With Normal Coronary Arteries: A Prospective Clinical-Angiographic Study.** Amadeo Betriu, J. Carlos Pare, Gines A. Sanz, Francisco Casals, Jorge Magriña, Angel Castañer and Francisco Navarro-Lopez

33 **Effects of Thyroid Hormone on Left Ventricular Function in Patients Treated for Thyrotoxicosis.** Michael V. Cohen, Ira C. Schulman, Angelo Spenillo, Martin I. Surks

39 **Effects of a Prescribed Supervised Exercise Program on Mortality and Cardiovascular Morbidity in Patients After a Myocardial Infarction. The National Exercise and Heart Disease Project.** Lawrence W. Shaw for the Project Staff

47 **Anatomic Substrate for Preexcitation in Idiopathic Myocardial Hypertrophy With Fibroelastosis of the Left Ventricle.** Saroja Bharati, Boris Strasberg, Michael Bilitch, Habbouba Saliba, William Mandel, Kenneth M. Rosen and Maurice Lev

EXPERIMENTAL STUDIES

59 **Differential Effects of Nitroprusside on Ischemic and Nonischemic Myocardial Segments Demonstrated by Computer-Assisted Two Dimensional Echocardiography.** Pascal Gueret, Samuel Meerbaum, Eliot Corday, Takahisa Uchiyama, Horace L. Wyatt and Jeffrey Broffman

69 **Antiarrhythmic and Hemodynamic Effects of Calcium Channel Blocking Agents During Coronary Arterial Reperfusion.** Lair G. T. Ribeiro, Tedd A. Brandon, Thomas L. Debauche, Peter R. Maroko and Richard R. Miller

75 **Beneficial Effect of Amrinone on Myocardial Oxygen Consumption During Acute Left Ventricular Failure in Dogs.** John H. Jentzer, Thierry H. LeJemtel, Edmund H. Sonnenblick and Edward S. Kirk

84 **Coronary Steal in Four Models of Single or Multiple Vessel Obstruction in Dogs.** Garrett J. Gross and David C. Warltier

93 **Influence of Acute Mechanical Overload on Dimension and Dynamics of Interventricular Septal Thickness in Dogs.** Shigetake Sasayama, Masaharu Nakamura, Masaaki Takahashi, Genta Osakada, Toshio Shimada, Eizo Nishimura and Chuichi Kawai

METHODS

101 **Noninvasive Assessment of Left Ventricular Performance in Patients With Ischemic Heart Disease: Ear Densitographic Study During Uninterrupted Treadmill Exercise.** Tetsuro Sugiura, Yoshinori L. Doi, Bruce G. Haffty, Kathleen A. Moreau, Richard L. Bishop, Jang B. Singh and David H. Spodick

106 **Resolution and Accuracy in Two Dimensional Echocardiography.** Larry A. Latson, John P. Cheatham and Howard P. Gutgesell

PEDIATRIC CARDIOLOGY

111 **Relation Between Aortic Arch Hypoplasia of Variable Severity and Central Muscular Ventricular Septal Defects: Emphasis on Associated Left Ventricular Abnormalities.** Rudolf J. Moene, Arentje Oppenheimer-Dekker and Arnold C. G. Wenink

117 **Absent Pulmonary Valve Syndrome in Infancy: Surgery Reconsidered.** Ann Dunnigan, H. Newland Oldham and D. Woodrow Benson, Jr.

REPORTS ON THERAPY

123 **Provocative Testing With Ergonovine to Assess the Efficacy of Treatment With Nifedipine, Diltiazem and Verapamil in Variant Angina.** David D. Waters, Pierre Théroux, Jadwiga Szlachcic and Franz Dauwe

131 **Clinical Efficacy of Verapamil Alone and Combined With Propranolol in Treating Patients With Chronic Stable Angina Pectoris.** Martin B. Leon, Douglas R. Rosing, Robert O. Bonow, Lewis C. Lipson, Stephen E. Epstein

140 **Angina Pectoris: Effects of Lidoflazine on Exercise Tolerance and Chest Pain.** Michael D. Jenkins, Edith A. Swallow, Omar Abdel-Hadi and Peter H. Kidner

147 **Antiarrhythmic Efficacy of Encainide and Quinidine: Validation of a Model for Drug Assessment.** Magdi Sami, Donald C. Harrison, Helena Kraemer, Nancy Houston, Christine Shimasaki and Robert F. DeBusk

157 **Pharmacokinetics of Lorcainide, a New Antiarrhythmic Drug, in Patients With Cardiac Rhythm Disorders.** Pitambar Somani

164 **Amrinone and Exercise Performance in Patients With Chronic Heart Failure.** Karl T. Weber, Virginia Andrews, Joseph S. Janicki, John R. Wilson and Alfred P. Fishman

170 **Hemodynamic Comparison of Intravenous Amrinone and Dobutamine in Patients With Chronic Congestive Heart Failure.** Neal A. Klein, Steve J. Siskind, William H. Frishman, Edmund H. Sonnenblick and Thierry H. LeJemtel

DIAGNOSTIC SHELF

177 **Echocardiographic Features of False Tendons in the Left Ventricle.** Toshihiro Nishimura, Makoto Kondo, Hiroshi Umado[illegible]e and Yukio Shimono with the technical assistance of Motoaki Sugiyama

CASE REPORTS

184 **Nifedipine Blockade of Ergonovine-Induced Coronary Arterial Spasm: Angiographic Documentation.** Alan J. Tiefenbrunn, Burton E. Sobel, Siddhesh Gowda, Robert C. McKnight and Philip A. Ludbrook

188 **Variable Threshold of Angina During Exercise: A Clinical Manifestation of Some Patients With Vasospastic Angina.** Stefano De Servi, Giuseppe Specchia, Maria Teresa Curti, Colomba Falcone, Antonello Gavazzi, Ezio Bramucci, Antonio Mussini, Luigi Angoli, Jorge Salerno and Piero Bobba

193 **Exercise-Induced Coronary Spasm With S-T Segment Depression and Normal Coronary Arteriography.** William E. Boden, Edward W. Bough, Kenneth S. Korr, Ian Benham, Mihai Gheorghiade, Anthony Caputi and Richard S. Shulman

SPECIAL DEPARTMENTS

198 **Books Received**

199 **Letters to the Editor**

201 **American College of Cardiology News**

CONTENTS: VOLUME 48 • NUMBER 2

AUGUST

CLINICAL STUDIES

209 **Stress Thallium-201 Myocardial Scintigraphy for the Detection of Individual Coronary Arterial Lesions in Patients With and Without Previous Myocardial Infarction.** Pierre Rigo, Ian K. Bailey, Lawrence S.C. Griffith, Bertram Pitt, Henry N. Wagner, Jr. and Lewis C. Becker

217 **Exercise Thallium-201 Myocardial Imaging in Left Main Coronary Artery Disease: Sensitive but Not Specific.** Terry Rehn, Lawrence S. C. Griffith, Stephen C. Achuff, Ian K. Bailey, Bernadine H. Bulkley, Robert Burow, Bertram Pitt and Lewis C. Becker

224 **The Inconsistent Pattern of Thallium Defects: A Clue to the False Positive Perfusion Scintigram.** Richard F. Dunn, Larry Wolff, Stephen Wagner and Elias H. Botvinick

233 **Value of Exercise Thallium-201 Imaging in Patients With Diagnostic and Nondiagnostic Exercise Electrocardiograms.** Abdulmassih S. Iskandrian and Bernard L. Segal

239 **Quantitative Radionuclide Angiography in Assessment of Hemodynamic Changes During Upright Exercise: Observations in Normal Subjects, Patients With Coronary Artery Disease and Patients With Aortic Regurgitation.** Abdulmassih S. Iskandrian, A-Hamid Hakki, Sally A. Kane and Bernard L. Segal

247 **Septal Q Wave in Exercise Testing: Angiographic Correlation.** Hugo Morales-Ballejo, Paul S. Greenberg, Myrvin H. Ellestad and Monte Bible

252 **Prognostic Significance of 24 Hour Ambulatory Electrocardiographic Monitoring in Patients With Hypertrophic Cardiomyopathy: A Prospective Study.** Barry J. Maron, Daniel D. Savage, James K. Wolfson and Stephen E. Epstein

258 **Abnormal Mitral Valve Coaptation in Hypertrophic Obstructive Cardiomyopathy: Proposed Role in Systolic Anterior Motion of Mitral Valve.** Pravin M. Shah, Richard D. Taylor and Maylene Wong

263 **Anatomic and Electrophysiologic Correlates of Ventricular Tachycardia Requiring Left Ventricular Stimulation.** James F. Robertson, Michael E. Cain, Leonard N. Horowitz, Scott R. Spielman, Allan M. Greenspan, Harvey L. Waxman and Mark E. Josephson

EXPERIMENTAL STUDIES

269 **Redistribution of Myocardial Blood Flow Distal to a Dynamic Coronary Arterial Stenosis by Sympathomimetic Amines. Comparison of Dopamine, Dobutamine and Isoproterenol.** David C. Warltier, Mark Zyvoloski, Garrett J. Gross, Harold F. Hardman and Harold L. Brooks

280 **Nonsustained Polymorphic Ventricular Tachycardia Induced by Electrical Stimulation in 3 Week Old Canine Myocardial Infarction.** Hasan Garan, John T. Fallon and Jeremy N. Ruskin

287 **Relation Between Conduction Delay and Ventricular Fibrillation: Characteristics of Conduction of Premature Impulses During Acute Myocardial Ischemia.** Toshifumi Fujimoto, Hiromu Hamamoto, Thomas Peter and William J. Mandel with the technical assistance of Avile McCullen

METHODS

295 **Prediction of Postoperative Performance in Aortic Valve Disease.** Israel Mirsky, Claudia Henschke, Otto M. Hess and Hans P. Krayenbuehl

304 **Evaluation of Aortocoronary Bypass Graft Status by Computed Tomography.** Frederic R. Kahl, Neil T. Wolfman and L. Earl Watts

311 **Normal Left Ventricular Emptying in Coronary Artery Disease at Rest: Analysis by Radiographic and Equilibrium Radionuclide Ventriculography.** Barry S. Denenberg, P. Todd Makler, Alfred A. Bove and James F. Spann

PEDIATRIC CARDIOLOGY

317 **Right Ventricular Ejection Fraction and Volumes After Mustard Repair: Correlation of Two Dimensional Echocardiograms and Cineangiograms.** Keiko Ninomiya, Walter J. Duncan, David H. Cook, Peter M. Olley and Richard D. Rowe

325 **Hemodynamic Abnormalities in Response to Supine Exercise in Patients After Operative Correction of Tetrad of Fallot After Early Childhood.** Albert P. Rocchini

331 **Axial Cineangiographic Evaluation of the Posterior Ventricular Septal Defect.** Curtis E. Green, Larry P. Elliott and Lionel M. Bargeron, Jr.

336 **Subaortic Stenosis: An Unrecognized Problem in Transposition of the Great Arteries.** Adam Schneeweiss, Michael Motro, Abraham Shem-Tov and Henry N. Neufeld

340 **Signs of Membranous Subaortic Stenosis Appearing After Correction of Persistent Common Atrioventricular Canal.** Giora Ben-Shachar, James H. Moller, Wilfrido Castaneda-Zuniga and Jesse E. Edwards

REPORTS ON THERAPY

345 **Randomized Controlled Trial of Vasodilator Therapy After Myocardial Infarction.** Bernard E. F. Hockings, Geoffrey D. Cope, Geoffrey M. Clarke and Roger R. Taylor

353 **Comparison of Bretylium Tosylate and Lidocaine in Management of Out of Hospital Ventricular Fibrillation: A Randomized Clinical Trial.** Robert E. Haynes, Tina L. Chinn, Michael K. Copass and Leonard A. Cobb

357 **Effect of Propranolol on Postexercise Left Ventricular Ejection Time Index.** Harisios Boudoulas, Paul D. Ruff, Phillip K. Fulkerson, Richard P. Lewis and Stephanos Dervenagas

REVIEWS

361 **Influence of Free Fatty Acids on Myocardial Oxygen Consumption and Ischemic Injury.** Harald Vik-Mo and Ole D. Mjøs

366 **Role of Blood Platelets and Prostaglandins in Coronary Artery Disease.** Jawahar Mehta and Paulette Mehta

CASE REPORTS

375 **Sustained Effectiveness of Minoxidil in Heart Failure After Development of Tolerance to Other Vasodilator Drugs.** Milton Packer, Jose Meller, Norma Medina and Madeline Yushak

380 **Oral Hydralazine in Patients With Pulmonary Vascular Disease Secondary to Congenital Heart Disease.** Raymond R. Fripp, Michael H. Gewitz, John C. Werner, Victor Whitman and William J. Rashkind

EDITORIALS

383 **Therapy of Hypertrophic Cardiomyopathy: Medical or Surgical? Clinical and Pathophysiologic Considerations.** Mario I. Canedo and Martin J. Frank

SPECIAL DEPARTMENTS

374 **Books Received**

389 **Letters to the Editor**

392 **American College of Cardiology News**

CLINICAL STUDIES

395 **Elevated Beta Thromboglobulin in Peripheral Venous Blood of Patients With Acute Myocardial Ischemia: Direct Evidence for Enhanced Platelet Reactivity in Vivo.** Thomas C. Smitherman, Mary Milam, Jannie Woo, James T. Willerson and Eugene P. Frenkel

403 **Intracoronary Infusion of Streptokinase in Patients With Acute Myocardial Infarction: Effects of Reperfusion on Left Ventricular Performance.** Lawrence A. Reduto, Richard W. Smalling, Gregory C. Freund and K. Lance Gould

410 **Comparative Study of Myocardial Ischemia During Angina at Rest and on Exertion Using Thallium-201 Scintigraphy.** Nilda Uthurralt, Graham J. Davies, Oberdan Parodi, Walter Bencivelli and Attilio Maseri

418 **Patterns and Significance of Distribution of Left Ventricular Hypertrophy in Hypertrophic Cardiomyopathy. A Wide Angle, Two Dimensional Echocardiographic Study of 125 Patients.** Barry J. Maron, John S. Gottdiener and Stephen E. Epstein

429 **Response of Normal and Abnormal Sinus Node to Right Ventricular Stimulation.** Jean Jacques Blanc, Eric Gestin, Daniel Guillerm, Jacques Boschat and Philippe Penther

437 **Variability of Repetitive Arrhythmia Formation in Patients With Chronic Ventricular Arrhythmia.** Alan H. Gradman, Mary Alice Harbison and John W. Lewis

443 **Occurrence and Significance of Endothelial Cells in Implanted Porcine Bioprosthetic Valves.** Tokuhiro Ishihara, Victor J. Ferrans, Michael Jones, Steven W. Boyce and William C. Roberts

EXPERIMENTAL STUDIES

455 **Ischemic Ventricular Fibrillation: The Importance of Being Spontaneous.** Pamela Ouyang, Jeffrey A. Brinker, Bernadine H. Bulkley, Bodh I. Jugdutt and Paul J. Varghese

460 **Effect of Diltiazem on Pacing-Induced Ischemia in Conscious Dogs With Coronary Stenosis: Improvement of Postpacing Deterioration of Ischemic Myocardial Function.** Shigetake Sasayama, Masaaki Takahashi, Masaharu Nakamura, Akira Ohyagi, Akiko Yamamoto, Toshio Shimada and Chuichi Kawai

468 **Atrial Alternans: Experimental Echocardiographic and Hemodynamic Demonstration During Programmed Pacing.** Daniel David, Masahito Naito, Eric L. Michelson, Joel Morganroth, T. Joseph Mardelli and Tom Blenko

METHODS

473 **Measurement of Normal Left Atrial Function With Gated Radionuclide Angiography.** Edward W. Bough, Elan J. Gandsman and Richard S. Shulman

479 **Digital Image Processing of Two Dimensional Echocardiograms: Identification of the Endocardium.** David J. Skorton, Charles A. McNary, John S. Child, F. Carter Newton and Pravin M. Shah

PEDIATRIC CARDIOLOGY

487 **Effects of Verapamil on Supraventricular Tachycardia in Children.** Co-Burn J. Porter, Paul C. Gillette, Arthur Garson, Jr., Peter S. Hesslein, Peter P. Karpawich and Dan G. McNamara

492 **Angiography of Atrioventricular Canal Defects.** Benigno Soto, Lionel M. Bargeron, Jr., Albert D. Pacifico, Vittorio Vanini and John W. Kirklin

500 **Intracardiac Surgery in Infants Under Age 3 Months: Incremental Risk Factors for Hospital Mortality.** James K. Kirklin, Eugene H. Blackstone, John W. Kirklin, Roxane McKay, Albert D. Pacifico and Lionel M. Bargeron, Jr.

507 **Intracardiac Surgery in Infants Under Age 3 Months: Predictors of Postoperative In-Hospital Cardiac Death.** James K. Kirklin, Eugene H. Blackstone, John W. Kirklin, Roxane McKay, Albert D. Pacifico and Lionel M. Bargeron, Jr.

EPIDEMIOLOGY

513 **Effect of Aging on the Electrocardiogram.** Sara Bachman, David Sparrow and L. Kent Smith

COOPERATIVE STUDIES

517 **Unstable Angina Pectoris: National Cooperative Study Group to Compare Medical and Surgical Therapy. IV. Results in Patients With Left Anterior Descending Coronary Artery Disease.** National Cooperative Study Group to Compare Medical and Surgical Therapy

REPORTS ON THERAPY

525 **Unstable Angina: Natural History and Determinants of Prognosis.** Risteard Mulcahy, Leslie Daly, Ian Graham, Noel Hickey, Sheera O'Donoghue, Anthony Owens, Pierce Ruane and Gerard Tobin

529 **Long-Term Antianginal Action of Verapamil Assessed With Quantitated Serial Treadmill Stress Testing.** Bala Subramanian, Michael Bowles, Avajit Lahiri, Anthony B. Davies and Edward B. Raftery

536 **Verapamil in Chronic Stable Angina: Amelioration of Pacing-Induced Abnormalities of Left Ventricular Ejection Fraction, Regional Wall Motion, Lactate Metabolism and Hemodynamics.** Harvey S. Hecht, Christopher Y. C. Chew, Michael H. Burnam, James Hopkins, Stephen Schnugg and Bramah N. Singh

545 **Verapamil Therapy: A New Approach to the Pharmacologic Treatment of Hypertrophic Cardiomyopathy: III. Effects of Long-Term Administration.** Douglas R. Rosing, John R. Condit, Barry J. Maron, Kenneth M. Kent, Martin B. Leon, Robert O. Bonow, Lewis C. Lipson and Stephen E. Epstein

554 **Dobutamine in Chronic Ischemic Heart Failure: Alterations in Left Ventricular Function and Coronary Hemodynamics.** Ruby Bendersky, Kanu Chatterjee, William W. Parmley, Bruce H. Brundage and Thomas A. Ports

559 **Permanent Pacemaker Infections: Characterization and Management.** Maurice H. Choo, David R. Holmes, Jr., Bernard J. Gersh, James D. Maloney, John Merideth, James R. Pluth and Jane Trusty

DIAGNOSTIC SHELF

565 **Detection of Left Ventricular Thrombi With Radionuclide Angiography.** John R. Stratton, James L. Ritchie, Karl E. Hammermeister, J. Ward Kennedy and Glen W. Hamilton

573 **Evaluation of Left Ventricular Thrombus With Computed Tomography.** Haruo Tomoda, Mitsumoto Hoshiai, Hideo Furuya, Akira Shotsu, Makoto Ootaki and Seiya Matsuyama

578 **Intracardiac Phonocardiography in Tricuspid Regurgitation: Relation to Clinical and Angiographic Findings.** Se Do Cha, Alden S. Gooch and Vladir Maranhao with the technical assistance of Eugene Koehler

CASE REPORTS

585 **Pulmonary Venous Dilatation in Pulmonary Veno-Occlusive Disease.** Ali Massumi, Larry Woods, Charles E. Mullins, William K. Nasser and Robert J. Hall

EDITORIALS

590 **Unstable Angina Pectoris: Do We Know the Best Management?** Richard O. Russell, Jr., Charles E. Rackley and Nicholas T. Kouchoukos

---

SPECIAL DEPARTMENTS

592 **Letters to the Editor**

593 **American College of Cardiology News**

CONTENTS: VOLUME 48 • NUMBER 4

OCTOBER

CLINICAL STUDIES

595 **Nontransmural Myocardial Infarction: A Comparison of Hospital and Late Clinical Course of Patients With That of Matched Patients With Transmural Anterior and Transmural Inferior Myocardial Infarction.** Adolph M. Hutter, Jr., Roman W. DeSanctis, Theresa Flynn and Lawrence A. Yeatman

603 **Factors Presaging Early Recurrent Myocardial Infarction ("Extension").** Alon Marmor, Burton E. Sobel and Robert Roberts

611 **Observations in Patients Showing A-V Junctional Echoes With a Shorter P-R Than R-P Interval. Distinction Between Intranodal Reentry or Reentry Using an Accessory Pathway With a Long Conduction Time.** Pedro Brugada, Frits W. H. M. Bär, Eddy J. Vanagt, Peter L. Friedman and Hein J. J. Wellens

623 **Clinical and Experimental Studies of the Effects of Atrial Extrastimulation and Rapid Pacing on Atrial Flutter Cycle. Evidence of Macro-Reentry With an Excitable Gap.** Hiroshi Inoue, Hiroshi Matsuo, Kan Takayanagi and Satoru Murao

632 **Influence of Heart Rate and Atrial Transport on Left Ventricular Volume and Function: Relation to Hemodynamic Changes Produced by Supraventricular Arrhythmia.** Joseph Hung, David T. Kelly, Brian F. Hutton, John B. Uther and Douglas K. Baird

639 **Retrograde Dual Atrioventricular Nodal Pathways.** Boris Strasberg, Steven Swiryn, Robert Bauernfeind, Edwin Palileo, Daniel Scagliotti, C. Elise Duffy and Kenneth M. Rosen

647 **Mitral Valve Replacement for Isolated Mitral Regurgitation: Analysis of Clinical Course and Late Postoperative Left Ventricular Ejection Fraction.** Harry R. Phillips, Frederick H. Levine, Jane E. Carter, Charles A. Boucher, Mary D. Osbakken, Robert D. Okada, Cary W. Akins, Willard M. Daggett, Mortimer J. Buckley and Gerald M. Pohost

655 **Digoxin-Induced Positive Exercise Tests: Their Clinical and Prognostic Significance.** Michael H. Sketch, Aryan N. Mooss, Mary L. Butler, Chandra K. Nair and Syed M. Mohiuddin

660 **Guidelines for Effective and Safe Percutaneous Intraaortic Balloon Pump Insertion and Removal.** Paul A. Vignola, Paul S. Swaye and Arthur J. Gosselin

665 **Structure and Classification of Cuspal Tears and Perforations in Porcine Bioprosthetic Cardiac Valves Implanted in Patients.** Tokuhiro Ishihara, Victor J. Ferrans, Steven W. Boyce, Michael Jones and William C. Roberts

EXPERIMENTAL STUDIES

679 **Characterization of Left Ventricular Mechanical Function During Arrhythmias With Two Dimensional Echocardiography. I. Premature Ventricular Contractions.** Takahisa Uchiyama, Eliot Corday, Samuel Meerbaum, Tzu-Wang Lang, Pascal Gueret, Moysey Povzhitkov and Thomas Peter

690 **Autonomic Interactions Among Subsidiary Atrial Foci.** Jerod M. Loeb and John M. Moran

698 **Relation of the Endocardial and Epicardial Ventricular Fibrillation Thresholds of the Right and Left Ventricles.** Leonard N. Horowitz, Joseph F. Spear and E. Neil Moore

702 **Dependency of Location of Salvageable Myocardium on Type of Intervention.** John R. Darsee and Robert A. Kloner

METHODS

711 **Two Dimensional Echocardiographic Analysis of Wall Motion Abnormalities During Handgrip Exercise in Patients With Coronary Artery Disease.** Hideo Mitamura, Satoshi Ogawa, Shingo Hori, Hajime Yamazaki, Shunnosuke Handa and Yoshiro Nakamura

720 **Two Dimensional Echocardiographic Evaluation of Exercise-Induced Left and Right Ventricular Asynergy: Correlation With Thallium Scanning.** Gerald Maurer and Navin C. Nanda

728 **Two Dimensional Echographic Imaging of the Left Ventricle: Comparison of Mechanical and Phased Array Systems in Vitro.** Joseph W. Helak, Theodore Plappert, Ali Muhammad and Nathaniel Reichek

736 **Diastolic Amplitude Time Index: A New Apexcardiographic Index of Left Ventricular Diastolic Function in Human Beings.** Jan Manolas and Wilhelm Rutishauser

746 **Automated Method for Left Ventricular Volume Measurement by Cineventriculography With Minimal Doses of Contrast Medium.** Shigetake Sasayama, Hiroshi Nonogi, Chuichi Kawai, Masatoshi Fujita, Shigeru Eiho and Michiyoshi Kuwahara

754 **Advantage of the Cranial-Right Anterior Oblique View in Diagnosing Mid Left Anterior Descending and Distal Right Coronary Artery Disease.** Larry P. Elliott, Curtis E. Green, William J. Rogers, John A. Mantle, Silvio E. Papapietro, William P. Hood, Jr. and Richard O. Russell, Jr.

REPORTS ON THERAPY

765 **Effect of Coronary Bypass Surgery on Survival Patterns in Subsets of Patients With Left Main Coronary Artery Disease. Report of the Collaborative Study in Coronary Artery Surgery (CASS).** Bernard R. Chaitman, Lloyd D. Fisher, Martial G. Bourassa, Kathryn Davis, William J. Rogers, Charles Maynard, Denis H. Tyras, Robert L. Berger, Melvin P. Judkins, Ivar Ringqvist, Michael B. Mock, Thomas Killip and participating CASS medical centers

778 **Relation of Time Course of Plasma Nitroglycerin Levels to Echocardiographic, Arterial Pressure and Heart Rate Changes After Sublingual Administration of Nitroglycerin.** Jeanne Y. Wei and Philip R. Reid

783 **Effects of Digitalis on the Human Sick Sinus Node After Pharmacologic Autonomic Blockade.** Joseph Anthony C. Gomes, Pritpal S. Kang and Nabil El-Sherif

REVIEWS

789 **One to One Atrioventricular Conduction During Atrial Pacing at Rates of 300/Minute in Absence of Wolff-Parkinson-White Syndrome.** Federico Moleiro, Ivan J. Mendoza, Victor Medina-Ravell, Agustin Castellanos and Robert J. Myerburg

797 **Dynamic Coronary Tone in Precipitation, Exacerbation and Relief of Angina Pectoris.** Stephen E. Epstein and Thomas L. Talbot

SPECIAL DEPARTMENTS

805 **Letters to the Editor**

811 **American College of Cardiology News**

CLINICAL STUDIES

815 **Prevalence, Characteristics and Significance of Ventricular Tachycardia (Three or More Complexes) Detected With Ambulatory Electrocardiographic Recording in the Late Hospital Phase of Acute Myocardial Infarction.** J. Thomas Bigger, Jr., Francis M. Weld and Linda M. Rolnitzky

824 **Ventricular Arrhythmias Late After Aortic Valve Replacement and Their Relation to Left Ventricular Performance.** Alan H. Gradman, Mary A. Harbison, Harvey J. Berger, Alexander S. Geha, Richard K. Shaw, Cynthia J. Crocco, Suzanne Stoterau, Linda Pytlik and Barry L. Zaret

832 **Evidence of Impaired Myocardial Perfusion and Abnormal Left Ventricular Function During Exercise in Patients With Isolated Systolic Narrowing of the Left Anterior Descending Coronary Artery.** Masood Ahmad, Steven L. Merry and Helmut Haibach

837 **Localization of Coronary Artery Disease With Exercise Electrocardiography: Correlation With Thallium-201 Myocardial Perfusion Scanning.** Richard F. Dunn, Ben Freedman, Ian K. Bailey, Roger F. Uren and David T. Kelly

844 **Effect of Exercise Training on the Untrained Limb Exercise Performance of Men With Angina Pectoris.** Paul D. Thompson, Eileen Cullinane, Bruce Lazarus and Richard A. Carleton

EXPERIMENTAL STUDIES

851 **Effects of Diltiazem on Conduction of Premature Impulses During Acute Myocardial Ischemia and Reperfusion.** Toshifumi Fujimoto, Thomas Peter, Hiromu Hamamoto and William J. Mandel with the technical assistance of Avile McCullen

858 **Quantitative Measurement of Electrical Instability as a Function of Myocardial Infarct Size in the Dog.** Beverly A. Jones-Collins and Randolph E. Patterson

864 **Role of the Conduction System in the Endocardial Excitation Spread in the Right Ventricle.** Kazuyoshi Nagao, Junji Toyama, Itsuo Kodama and Kazuo Yamada

871 **Electrophysiologic Evaluation of Encainide With Use of Monophasic Action Potential Recording.** Rolf G. Samuelsson and Donald C. Harrison

PEDIATRIC CARDIOLOGY

877 **Muscular Ventricular Septal Defects Repaired With Left Ventriculotomy.** Sylvia P. Griffiths, George K. Turi, Kent Ellis, Ehud Krongrad, Lucy H. Swift, Welton M. Gersony, Frederick O. Bowman, Jr. and James R. Malm

887 **Relation of the Echocardiographic Estimate of Left Ventricular Size to Mortality in Infants With Severe Left Ventricular Outflow Obstruction.** Larry A. Latson, John P. Cheatham and Howard P. Gutgesell

892 **Correction of Tetrad of Fallot With Reduced Incidence of Right Bundle Branch Block.** Daniel A. Goor, Jacob Lavee, Aram Smolinsky, Simcha Milo, Leonard C. Blieden, Abraham Shem-Tov and Henry N. Neufeld

EPIDEMIOLOGY

897 **Plasma Testosterone, High Density Lipoprotein Cholesterol and Other Lipoprotein Fractions.** James Gutai, Ronald LaPorte, Lewis Kuller, Wanju Dai, Lorita Falvo-Gerard and Arlene Caggiula

903 **Relation Between High Density Lipoprotein Cholesterol and Coronary Artery Disease in Asymptomatic Men.** Gregory S. Uhl, Raymond G. Troxler, James R. Hickman, Jr. and Dale Clark

REPORTS ON THERAPY

911 **Antiarrhythmic Significance of Dosing Intervals in Beta Receptor Blocking Therapy of Hypertension With Acebutolol.** M. Heikki Frick and Risto Kala

917 **Labetalol Therapy in Patients With Systemic Hypertension and Angina Pectoris: Effects of Combined Alpha and Beta Adrenoceptor Blockade.** William H. Frishman, Joel A. Strom, Marc Kirschner, Marcia Poland, Neal Klein, Stanley Halprin, Thierry H. LeJemtel, Michael Kram and Edmund H. Sonnenblick

929 **Paroxysmal Atrial Flutter and Fibrillation Associated With Preexcitation Syndrome: Treatment With Ajmaline.** Samuel Sclarovsky, Oscar H. Kracoff, Boris Strasberg, Ruben F. Lewin and Jacob Agmon

934 **Effects of Isosorbide Dinitrate and Hydralazine on Regional Metabolic Responses to Arm Exercise in Patients With Heart Failure.** John R. Wilson, William Untereker and John Hirshfeld with the technical assistance of Nancy Ferraro

939 **Provocation of Myocardial Ischemic Events During Initiation of Vasodilator Therapy for Severe Chronic Heart Failure. Clinical and Hemodynamic Evaluation of 52 Consecutive Patients With Ischemic Cardiomyopathy.** Milton Packer, Jose Meller, Norma Medina, Madeline Yushak and Richard Gorlin

DIAGNOSTIC SHELF

947 **Limitations of Echocardiographic Techniques in Evaluation of Left Atrial Masses.** Patricia C. Come, Marilyn F. Riley, John E. Markis and Michael Malagold

954 **Two Dimensional Echocardiographic Detection of Intraatrial Masses.** Nicholas L. DePace, Renate L. Soulen, Morris N. Kotler and Gary S. Mintz

961 **Two Dimensional Echocardiography in Evaluation of Right Atrial Masses: Five Cases in Pediatric Patients.** Thomas Riggs, Milton H. Paul, Serafin DeLeon and Michel Ilbawi with the technical assistance of Sue Pajcic

CASE REPORTS

967 **Initiation of Ventricular Tachycardia by Interpolated Ventricular Premature Depolarizations.** Peter L. Friedman, Pedro Brugada, Karl-Heinz Kuck, Frits W. H. M. Bär and Hein J. J. Wellens

EDITORIALS

973 **Cardiolocution: The Cardiologist's Assault on English.** David H. Spodick

SPECIAL DEPARTMENTS

975 **Letters to the Editor**

982 **Books Received**

985 **American College of Cardiology News**

CONTENTS: VOLUME 48 • NUMBER 6

DECEMBER

CLINICAL STUDIES

995 **Prognostic Significance of Systolic Time Intervals After Recovery From Myocardial Infarction.** Arnold M. Weissler, William W. O'Neill, Young H. Sohn, Richard S. Stack, Phillip C. Chew and Allen H. Reed

1003 **Significance of Reciprocal S-T Segment Depression in Anterior Precordial Leads in Acute Inferior Myocardial Infarction: Concomitant Left Anterior Descending Coronary Artery Disease?** Juan R. Salcedo, Michael G. Baird, R. Jane Chambers and Donald S. Beanlands

1009 **Anterior S-T Segment Depression in Acute Inferior Myocardial Infarction: Indicator of Posterolateral Infarction.** Harvey L. Goldberg, Jeffrey S. Borer, Jerome G. Jacobstein, Jeffrey Kluger, Stephen S. Scheidt and Daniel R. Alonso

1016 **Hemodynamic Spectrum of "Dominant" Right Ventricular Infarction in 19 Patients.** Elwyn A. Lloyd, Bernard J. Gersh and Brian M. Kennelly

1023 **Time Course and Rate Dependence of Q-T Interval Changes During Noncomplicated Acute Transmural Myocardial Infarction in Human Beings.** Juan Cinca, Jaime Figueras, Luis Tenorio, Vicente Valle, Javier Trenchs, Rosa Segura and Jorge Rius

1029 **Coronary Flow Limitation During the Development of Ischemia. Effect of Atrial Pacing in Patients With Left Anterior Descending Coronary Artery Disease.** Richard M. Fuchs, Jeffrey A. Brinker, W. Lowell Maughan, Myron L. Weisfeldt and Frank C. P. Yin

1037 **Computer-Enhanced Thallium Scintigrams in Asymptomatic Men With Abnormal Exercise Tests.** Gregory S. Uhl, Thomas N. Kay and James R. Hickman, Jr.

1044 **Transluminal Coronary Angioplasty of Postmortem Human Hearts.** Kenneth L. Baughman, Richard C. Pasternak, John T. Fallon and Peter C. Block

1048 **Postprandial Alterations in Cardiovascular Hemodynamics in Autonomic Dysfunctional States.** David Robertson, Dawn Wade and Rose Marie Robertson

EXPERIMENTAL STUDIES

1053 **Augmentation of Carotid Flow During Cardiopulmonary Resuscitation by Ventilation at High Airway Pressure Simultaneous With Chest Compression.** Nisha Chandra, Myron L. Weisfeldt, Joshua Tsitlik, Freny Vaghaiwalla, Louis D. Snyder, Margaret Hoffecker and Michael T. Rudikoff

1064 **Reduction in Infarct Size by Synchronized Selective Coronary Venous Retroperfusion of Arterialized Blood.** Gregory T.Smith, Grayson G. Geary, William Blanchard and J. Judson McNamara

1071 **Effects of Aminophylline in the Conscious Dog After Coronary Occlusion.** John D. Rutherford, Stephen F. Vatner and Eugene Braunwald

METHODS

1077 **Intravenous Dipyridamole Combined With Isometric Handgrip for Near Maximal Acute Increase in Coronary Flow in Patients With Coronary Artery Disease.** B. Greg Brown, Martin A. Josephson, Robert B. Petersen, Cynthia D. Pierce, Maylene Wong, Harvey S. Hecht, Edward Bolson and Harold T. Dodge

1086 **Quantification of Left to Right Cardiac Shunts by Multiple Deconvolution Analysis.** Michel H. Bourguignon, Jonathan M. Links, Kenneth H. Douglass, Philip O. Alderson, J. Michael Roland and Henry N. Wagner, Jr.

PEDIATRIC CARDIOLOGY

1091 **Safety and Efficacy of Short- and Long-Term Verapamil Therapy in Children With Tachycardia.** David W. Sapire, Anna C. O'Riordan and Iain F. S. Black

1098 **Congenital Complete Atrioventricular Block: Clinical and Electrophysiologic Predictors of Need for Pacemaker Insertion.** Peter P. Karpawich, Paul C. Gillette, Arthur Garson, Jr., Peter S. Hesslein, Co-Burn Porter and Dan G. McNamara

1103 **Left Isomerism and Complete Atrioventricular Block: A Report of Six Cases.** Otto L. Garcia, Ashok V. Mehta, Arthur S. Pickoff, Dolores F. Tamer, Pedro L. Ferrer, Grace S. Wolff and Henry Gelband

1108 **Reoperation for Coarctation of the Aorta.** Robert H. Beekman, Albert P. Rocchini, Douglas M. Behrendt and Amnon Rosenthal

REPORTS ON THERAPY

1115 **Central and Regional Hemodynamic Effects of Intravenous Isosorbide Dinitrate, Nitrogiycerin and Nitroprusside in Patients With Congestive Heart Failure.** Carl V. Leier, Dennis Bambach, Michael J. Thompson, Stephen M. Cattaneo, Robert J. Goldberg and Donald V. Unverferth

1124 **Long-Term Antiarrhythmic Therapy With Acetylprocainamide.** Jeffrey Kluger, Stephen Leech, Marcus M. Reidenberg, Virginia Lloyd and Dennis E. Drayer

1133 **Suppression of Resistant Ventricular Arrhythmias by Twice Daily Dosing With Flecainide.** Henry J. Duff, Dan M. Roden, Rebecca J. Maffucci, Barbara S. Vesper, Gordon J. Conard, Stanley B. Higgins, John A. Oates, Raphael F. Smith and Raymond L. Woosley

1141 **Quinidine-Digoxin Interaction: Time Course and Pharmacokinetics.** Edward B. Leahey, Jr., J. Thomas Bigger, Jr., Vincent P. Butler, Jr., James A. Reiffel, Genevieve C. O'Connell, Linda E. Scaffidi and Jeffrey N. Rottman

REVIEWS

1147 **Plasma Norepinephrine As an Indicator of Sympathetic Neural Activity in Clinical Cardiology.** David S. Goldstein

DIAGNOSTIC SHELF

1155 **Two Dimensional Echocardiographic Diagnosis of Aortic Dissection.** Mark F. Victor, Gary S. Mintz, Morris N. Kotler, Audrey R. Wilson and Bernard L. Segal with the technical assistance of Wayne R. Parry

CASE REPORTS

1160 **Ventricular Fibrillation Complicating Temporary Ventricular Pacing in Acute Myocardial Infarction: Significance of Right Ventricular Infarction.** Samuel Sclarovsky, Nili Zafrir, Boris Strasberg, Oscar Kracoff, Ruben F. Lewin, Alex Arditi, Kenneth M. Rosen and Jacob Agmon

EDITORIALS

1167 **Implications of Precordial S-T Segment Depression in Acute Inferior Myocardial Infarction.** Prediman K. Shah and Daniel S. Berman

SPECIAL DEPARTMENTS

1169 **Letters to the Editor**

1171 **American College of Cardiology News**

1175 **Author Index**

1178 **Subject Index**
